New Alberta School Act Being Debated This Week In House at Capital City

Subjected to Keen Discussion by School Trustees and Others Throughout the Province—Sponsored by Hon. Perren Baker, Minister of Education

Edmonton, March 9.—The new school act, which has been the subject of keen discussion by school trustees and others all over the province, and which embodies the substance of all provisions of the old act, in addition to making additional provision for the grouping of rural school districts into divisions, has been finally printed, and Saturday morning it was ready for distribution to all members of the provincial legislature.

First reading of the bill was given in the house just before it adjourned at 8 o'clock, Friday evening, and it is expected that the debate upon the bill will continue Tuesday afternoon of next week.

The bill, which is being sponsored by Hon. Perren Baker, minister of education, makes no substantial alteration in the law with regard to the establishment of any school districts; neither adds or detracts from any of the rights heretofore enjoyed by a minority to establish separate schools, does not change the right of any school board in the matter of religious teaching, and provisions of part fifteen of the act effects only those rural public school districts which are included in a division.

Provision is made for the grouping of rural public school districts into divisions, divided into five subdivisions, for the appointment of a delegate from the board of each district in the division, for the meeting of delegates for the nomination of the delegates of each subdivision, of a director, and for the election of a director in the case of a contest by the electors of the subdivision at large.

The board so constituted is the executive of the division, and is charged with the duty of providing for the educational requirements of the division, and for that purpose is given all the powers which are otherwise vested in the board of trustees of a district in relation to the appointment of the teacher and the general control and supervision of the teaching in the schools in the division.

Part 15 further provides for the appointment of a general board consisting of one representative from each division constituted under this part, and the main functions of this board are to establish a teachers' salary schedule, to pay all teachers' salaries, and to raise the necessary funds for the payment of the expenses of both the general board and each divisional board in the following manner:

The general board will ascertain

by divisions the value of all land and other property assessable for local taxation, under the provisions of the Municipal District Act, 1926, and the Improvement Districts Act, 1927, and will then proceed to strike a mill rate on all the assessable property in all districts in the divisions, sufficient to raise the estimated expenditure of the general board, and to strike another mill rate on the total value of the assessable property in each division sufficient to raise the amount of the estimated expenditures for each division, and then proceed to make a requisition upon the council of each municipal district, and upon the minister in respect of assessable lands and property in improvement districts, for an amount equal to the amount which would be raised in each municipal district or improvement district if a rate levied upon all the assessable property in the municipal district or improvement district at the sales struck by the board were paid in full. Thereupon the municipal district or the minister, as the case may be, becomes liable for the payment to the general board by quarterly instalments of the amount so requisitioned, and may levy such a rate as is deemed necessary to raise the required amount.

Provision is made for the appointment of one superintendent and two supervisors for each division. The salaries and expenses of the supervisors will be paid out of the total amount of school grants earned by the districts comprised in the divisions, and the balance of such grants will be paid to the general board, and will be applied by that board in payment of teachers' salaries.

Part 16 contains the following provisions:

(1) The maximum amount payable for tuition in grades below Grade IX is raised from sixteen dollars to thirty dollars.

(2) The fee payable for tuition in grades above Grade VIII is the cost of the tuition, exclusive of overhead charges.

(3) The maximum amount payable by a parent or guardian is raised from thirty dollars to sixty dollars.

(4) In the case of school districts comprised in a division the fees which would otherwise be paid by the district are payable by the general board where a pupil whose parents reside in a school district in a division attends a school in a district not in a division, and in the opposite case fees are payable to the general board, but no fees are payable or receivable as between districts comprised in any division.

The Government's attitude at present is that the enquiry presently started must be pursued. So that the Government may have expert advice on the matter the Premier announced the pending appointment of an outstanding electrical engineer. Any provincial scheme, he further stated, must be based on the acquisition of the Calgary Power Company's plants.

At the conclusion of the debate the motion of J. T. Shaw, Liberal, Bow Valley, recommending the non-allocation of any power resources pending an enquiry and report was rejected. So also was that of John Irwin, Calgary, by which the Government would have been restrained from entering into the business of producing power. The sub amendment moved by O. L. McPherson, providing for a continuance of the enquiry and the safeguarding of the right of the province to take over development and distribution was carried by an overwhelming majority.

Obituary

LOUIS BENSON WEDIN

Another of the early citizens passed away on Tuesday at his home in Edmonton, in the person of Louis Benson Wedin. He was a native of Sweden, and was aged seventy-three years, three months and thirteen days. As a young man, he emigrated to the United States and resided at Grant County, South Dakota, until the spring of 1901, when he came to Wetaskiwin, arriving here on April 6. He was favorably impressed with the prospects of this community, and erected the Wetaskiwin hotel during the summer and he conducted this hostelry until about five years ago, when he disposed of the property. He then moved to Edmonton, where he has since resided. On March 5, he had the misfortune to fall and break his hip and the shock proved too much for him. He leaves to mourn his loss, one daughter, Mrs. J. S. Sells of Calgary, and two sons, Richard of Wetaskiwin and Albert of Gahndah, besides a very large circle of friends and acquaintances.

The remains are being brought to Wetaskiwin for burial and the funeral service will be held at the Swedish Baptist church at 10:30 Sunday forenoon. The interment will take place in the Wetaskiwin cemetery.

IRENE PATRICIA CHERINGTON

The sympathy of the entire community is extended to Mr. and Mrs. Cherry Cherrington of Cherry Grove district, in the loss of their infant daughter, Irene Patricia, who was taken from them by the angel of death on Saturday, at the age of twelve days. The funeral took place Monday afternoon, service being conducted at the First United church of Wetaskiwin, by Rev. A. L. Elliott. The remains were tenderly laid away in the family plot in the Wetaskiwin cemetery.

JOHN WARNEK

Another of the old timers of the Wetaskiwin district in the person of John Warnek, was called to his long home on Sunday last at the age of 81 years and three months. For a number of years he had been suffering from illness, and he was taken to his long home by the angel of death on Sunday last. He was a native of Poland, and had been a resident of the Wetaskiwin district for about 25 years. The funeral took place on Tuesday, the interment being in the Peace Hill cemetery. The service was conducted by Rev. O. Hühner.

GOVERNMENT NOT READY TO EMBARK ON POWER SCHEME

Edmonton, March 12.—Premier Brownlee in one of the most important pronouncements of the session yesterday informed the House that Alberta was not ready to embark on a public power enterprise. He went further and said that whether the Government ever would undertake such a scheme would depend on three main questions. These were, ability to acquire existing plants at a fair valuation, the control it would exercise over power resources, and ability to finance a scheme without hindering the development of the Province in other ways.

The Government's attitude at present is that the enquiry presently started must be pursued. So that the Government may have expert advice on the matter the Premier announced the pending appointment of an outstanding electrical engineer. Any provincial scheme, he further stated, must be based on the acquisition of the Calgary Power Company's plants.

At the conclusion of the debate the motion of J. T. Shaw, Liberal, Bow Valley, recommending the non-allocation of any power resources pending an enquiry and report was rejected. So also was that of John Irwin, Calgary, by which the Government would have been restrained from entering into the business of producing power. The sub amendment moved by O. L. McPherson, providing for a continuance of the enquiry and the safeguarding of the right of the province to take over development and distribution was carried by an overwhelming majority.

THOUSANDS WITNESS SEGRAVE'S SPEEDER WIN IN TERRIFIC TEST

Ocean Speedway, Daytona Beach, Fla., March 12.—In a flaming stroke of super-speed Major H. O. D. Segrave, famous British race track driver, yesterday set a new world's speed record for automobiles by sending his powerful Golden Arrow machine roaring over the hard wave-lapped ocean speedway here, at the tremendous speed of 231.38240 miles an hour.

Driving his glistening 12-cylinder machine at a dazzling pace, Major Segrave eclipsed by 25.51 miles an hour the former record of 207.55 set here last year by Ray Ketch, of Philadelphia, in the 36-cylinder triplex owned by J. M. White. The new mark also surpassed by 28 miles an hour the record of 203 which Segrave set here in 1927 with his Sunbeam Special.

GOVERNMENT UNDECIDED ABOUT PRIVATE OR PUBLIC OWNERSHIP

Edmonton, March 9.—That the future plans of the provincial government in connection with the development of the power resources of the province are getting the minds of all groups in the provincial legislature was amply demonstrated Friday afternoon when a resolution, an amendment to the resolution and an amendment to the amendment, all dealing with the power situation, were introduced to the speaker, and provided the means for the last big debate of the present session.

PEACE HILL CHAPTER, I.O.G.E. HOLD MEETING

Mrs. P. L. Granger and Mrs. W. Gibson were hostesses at the former's home on Tuesday evening, for the members of Peace Hill Chapter, I. O. G. E. Annual reports from the different committees presented the following facts:

Relief, in way of clothing, etc., was given to three families in need. A medal was presented to David Apple, Grade VIII, pupil having the highest standing, and a scholarship of \$25 to Miss Gwladys, Grade III, pupil with highest standing.

\$50 was spent on Christmas Cheer, when, with other organizations, Christmas parcels were sent to 153 children. \$25 was also voted for educational work among the foreign born in Alberta, and \$5 to "Save the Children Fund."

Milk has been supplied free for all underprivileged and undernourished school children, and through the Chapter's work in this direction, all children desiring milk at school can have it by paying 2c a day. The Chapter's expenses in this connection for approximately nine months, was \$190.40, and in January alone 1345 bottles were delivered to the schools. The total amount paid to the Creameries for the nine months was \$254.54, so many children are taking advantage of this opportunity. The Chapter is very grateful for the assistance given by all the school teachers and the two Creameries.

The main objective of the Chapter is "Child Welfare and Educational Work," and during the year \$242.40 was spent in the furtherance of these. There are 46 members.

GRADE XII HOLD SUCCESSFUL PARTY

The Women's Institute rooms were the scene of a gay party on Friday evening last when the Grade XII of the High School, entertained their teachers and friends.

The first part of the evening was spent in games and contests. Everett Lyle played some piano selections, Lauretta Vickers danced and Mr. C. Jacobs sang.

After a dainty and substantial lunch those who wished danced or played cards. Circle two-steps in which all joined, proved the most popular. When the guests departed a small army of volunteers soon restored order.

Among the guests were Mrs. and Mr. E. L. Moore, Mrs. and Mr. H. C. Cooke, Mr. E. L. Thomas, Mrs. E. Jacobs, Miss Redden, Miss Woods, Miss Kennedy, who had charge of the party, Mr. McLennan and Mr. Fletcher.

The Grade XII students are to be congratulated upon their success, especially M. A. Borys, who was master of ceremonies throughout the evening.

BORN

POHL—On March 12, to Mr. and Mrs. Emil Pohl, a daughter.

DOEL—At Gwynne, on the 10th inst., to Mr. and Mrs. Percy Doel, a daughter.

REED—On March 9, to Mr. and Mrs. Ray Reed, a daughter.

HEDLAD—In the Wetaskiwin hospital on the 8th inst., to Mr. and Mrs. T. Hoidal, a daughter.

STEIN—At Bulwark on the 7th inst., to Mr. and Mrs. Stein, a son.

MARSHALL—At Lacombe on the 7th inst., to Mr. and Mrs. J. R. Marshall, a daughter (Lillian Margaret).

Town Topics

Miss Valburga Groiner spent the weekend with friends in Camrose and Bittern Lake.

Mr. and Mrs. Frank Evans left a few days ago for Seattle, where they intend to make their residence.

Fritz Peterson made a business trip to Innisfail by motor last week. He reports the roads in fair condition.

The regular monthly meeting of the W.M.S. of the United Church will be held in the Sunday school room of the church on Tuesday, March 19th, at 9:30 o'clock.

The snow disappeared rapidly during the past few days, and we understand the cars can now run on all the roads leading to Wetaskiwin, although in some parts the going is not very good.

Mr. and Mrs. J. E. Burkholder went to Glenora a few days ago to attend the funeral of Mrs. Burkholder's aunt, who died at Vancouver, and whose remains were brought to Glenora for burial in the family plot.

On Wednesday afternoon, March 20, from 2 till 4, the staffs of The Alexandra and King Edward public schools will be at home to all persons who wish to take this opportunity of meeting the teachers and discussing with them the work of the pupils.

Mrs. J. W. Somers underwent a very serious operation in the Wetaskiwin hospital on Saturday evening. At the time of going to press, she is doing nicely, and her host of friends hope that she will soon be around again in her usual wonted health.

Miss Turner, who has had charge of Morton's Limited here for some time, has severed her connections with the firm, and left this week for Ponoka, where she is going into business for herself. Miss E. R. Whiteley of the Edmonton branch is temporarily in charge at the Wetaskiwin store.

Harry Moore, son of Mr. and Mrs. E. L. Moore, met with a very serious accident on Saturday afternoon. While riding his pony at the farm, the animal slipped and fell on Harry, with the result that he had both bones of one of his legs broken between the knee and the ankle. He was taken to the Wetaskiwin hospital for treatment.

Four rinks of curlers representing the Edmonton Kiwanis Club played an inter club game with the Wetaskiwin Kiwanians on Friday afternoon. The game resulted in a tie. After the game, the visitors were banqueted at the Grand hotel and a delightful time was enjoyed until the departure of the 9:40 train. It is hoped that a return game will be played in a few days.

The Women of Mooseheart Legion local Chapter, paid a visit to the Edmonton Chapter on Wednesday of last week. The local Legionnaires were very much impressed with the demonstration of floor work as exemplified by the Chapter to the north. The following Legionnaires attended, Mesdames Moan, Conrad, Thompson, Sorensen, Biddinger, H. Evans, E. Evans, Shaw, Thirsk, Portiss, Edwards, Bellamy and Alderman.

At the recent theory examinations held by the Toronto Conservatory of Music in Edmonton, the following pupils of Miss H. Marjorie Robinson were successful: Primarily Theory, Elmer Finch, 1st Class Honours; John Egan, Honours; Nora Pineda, First; Miss Robinson also wrote the following subjects: Intermediate Form, 1st Class Honours; Intermediate Harmony, Pass. Miss Robinson is a pupil of Mrs. T. W. Hamilton, L.R.A.M., Edmonton.

The W.O.M.L. and L.O.O.M. gave a farewell party on Tuesday night in the lodge rooms to Mr. and Mrs. Frank Evans, who were leaving to make their home in the U.S. About sixty were present, and all report having a splendid time. Mrs. Moan, on behalf of the Ladies' Chapter, presented Mrs. Evans with a beautiful handbag as a token of appreciation for her faithful services. Mrs. Bellamy presented, on behalf of the ladies who accompanied Mrs. Evans to Edmonton last week, a beautiful fountain pen, in remembrance of the good time spent together while in the Capital city. Mr. Thompson, on behalf of the L.O.L., presented Mr. Evans with a suitable gift as a token of remembrance.

DISTRICT COURT

Sittings of the District Court were held at the Court House here on Wednesday, with His Honor Judge Lees presiding. There were only two cases on the docket, and only one tried.

In the case of Thomas vs. Fulk, there was a small debt action, judgment was given the defendant in the sum of \$1225 with costs. Alex. Knox acted for the defendant, and R. W. Manley for the plaintiff.

The case of Murray vs. Ponoka School Board, was adjourned until March 26th.

One Man Is Injured and Others Narrowly Escape Wind Storm in Timbers

CHURCH ARMY CRUSADERS VISIT WETASKIWIN

Two members of the Church Army Crusaders from England, Captain S. G. Jackson and Sister Boardman, who are visiting Western Canada this year, are holding successful mission services each day in the Anglican Church, Wetaskiwin, which cannot help but be of great help to the spiritual life of the community. The mission commenced on Sunday last and will be continued until Thursday. On Friday, special services will be held in the Anglican Church, Ponoka. The work of the Church Army is not too well known in Western Canada, although it has been in existence for 47 years in the Old Country, and today is the largest home-mission Society in the Anglican Church.

The Church Army was started in 1882 by a young curate, Rev. Wilson Carille, who is now the "Chief" of the Church Army, a Prebendary of St. Paul's Cathedral, London, Eng., and a Companion of Honor by direction of the King. In the early days the Army met with much opposition, but the work has grown year by year, until the Church Army has over 1000 full time workers within its ranks. It is interesting to learn that 413 of the Anglican clergy in Canada at one time served in the ranks of the Church Army.

The majority of the Crusaders who are visiting the prairie provinces are young, but keen, consecrated churchmen and women. There is nothing sensational about them, all their work being done on a safe but aggressive lines.

OLDEST ALBERTAN HAS PASSED AWAY

Bashaw, Alta., March 9.—On Monday last, the oldest inhabitant of the district, passed away at the ripe old age of 103.

Mrs. Ward, of Rocking Bay, was of mixed Scottish and Indian descent and will be probably interred at Hobbema.

She leaves to mourn her loss, one son, Jacob, a survivor of the Riel rebellion, and one daughter, Mrs. Todd, both of Bashaw district, besides a large number of grand children and great grandchildren.

Towards the end of her long life, her sight and memory were failing her, but to the end she always enjoyed her daily pipe.

PROROGATION IS LIKELY MARCH 20

Edmonton, March 14.—From present indications it may be taken that prorogation will take place about March 20. The legislative program is being cleared up fast and not much remains to be done.

On Thursday afternoon, March 7, Mrs. L. C. McKinney, ex-M.L.A., speaking under the auspices of the W.C.T.U., of which she is Provincial President, addressed a large number of ladies and a sprinkling of gentlemen, at the home of Mrs. Wm. Mellett, local president. In her realistic style, the speaker took her audience on a trip to Lausanne to the World's Convention. Her notes, by the way, were replete with information and interesting anecdotes.

The small party of Canadian delegates joined with the large number of Americans, making a delightfully friendly and congenial party. Arriving at beautiful Lausanne, they met delegates from thirty different countries, nearly everyone speaking English. The programs were printed in English, also in French, which might be called the national language of Switzerland. The routine was much like other conventions, but the large number of delegates, fired with the ideal of final emancipation from the curse of the legalized liquor traffic, carried an inspiration undecipherable.

They had been told that prohibition was tabooed in Europe, but on the contrary, "the word prohibition crytallized the issue in the form in every country represented. The reports were most heartening. Although Finland is today the only prohibition country, Norway and Sweden having been obliged to recent when the wine producing countries said to them, "We will not take your fish unless you take our wine." But the Swedish government makes an appropriation for the teaching of scientific temperance. Teaching wine is a phase of the question on which all are agreed, and the temperance women of the wine producing countries are busy making unfettered wine, table juice, in England they talk a little too much about the excessive use of alcohol,

Trees Blown Down by the Hundreds in Winfield District—Carl Gunderson Has Narrow Escape

Winfield, Alta., March 2.—During a terrific windstorm which struck the vicinity of Winfield and lasted until darkness set in, the wind at times reached the stage of a hurricane blowing down trees by the hundreds and making work in the timber impossible. At the height of the storm, a number of men working for the Knob Hill Sawmill Co., were seeking an open place, a tree fell amongst them and all but one, Carl Gunderson, got clear, he was struck on the side of the head by the tree, receiving a severe scalp wound. Fortunately, the blow was a glancing one or he certainly would have been killed. The government man, another worker, was sent for, but owing to the state of the roads could not make the trip, the truck in which she started out with, breaking down and landing in the ditch. Mrs. Eliason, wife of the proprietor of the sawmill, gave first aid, and on Saturday morning, Gunderson was sent to the Bentley hospital by train.

Heldner & Skuse, cordwood contractors, had a narrow escape also from death. They were returning to their camp when the storm started and on their way hundreds of fallen trees barred progress, during a period when they were cutting a fallen tree from the trail, another struck the end of their sleigh, they managed to make camp without further mishap. All men were called in during the afternoon from the woods.

The sudden thaw has upset all log hauling, another week of late trails and logs lying in the woods, would have been safely on the "ski" way at the various mills.

INTERESTING DEBATE HELD IN CROOKED LAKE HALL

A very interesting debate was held in the Crooked Lake hall on Friday evening, March 8. The subject was "Resolved, that the present Educational Act would be beneficial to the rural people of Alberta." Those who supported the affirmative were Messrs. C. O. Jevne, Alex. Cummings and Nels Fremstad, while those who upheld the negative were Messrs. J. J. Anderson, Alf. Jevne and T. T. Jevne. A large crowd was in attendance. The decision was in favor of the affirmative. After the debate, refreshments were served, and a most enjoyable evening was spent.

High River defeated Blairmore 4-3 last night in the provincial playoffs for the Allan cup series.

Ladies' Aid Variety Concert Most Pleasing in Every Way

The Ladies' Aid of the First United Church fully sustained their reputation for putting on first-class concerts on Wednesday evening of last week, when a variety entertainment was rendered in the Angus Theatre. The building was packed to the doors and everyone present thoroughly enjoyed a most interesting concert. The opinion was generally expressed that this was the best entertainment yet given under the auspices of the Ladies' Aid and much credit and praise is due the committee who were responsible.

After an orchestra selection, a Ladies' Aid chorus was given, followed by a few local hits, and a fashion show, which displayed costumes in vogue two or three decades ago, brought down the house. The sketch, "The Babes in the Woods" was one of the prettiest scenes ever seen in town, the costumes being especially suitable and attractive. There has been a great demand to have the sketch repeated, and arrangements have been made to have this done as an added attraction at the matinee in the Theatre on Saturday afternoon of this week.

Mrs. Ardwyn Brink, who is always a favorite with Wetaskiwin audiences, rendered a couple of solos and encores which were very greatly appreciated. The Human Minuet was something original for Wetaskiwin, and the eight young ladies who sang the scale under the direction of the Professor, Mr. Carroll Jacobs, were particularly interesting.

The dances given by Robert and Jean George were fully up to expectations and were among the best numbers on the program. The quartette and encore by Mrs. McMurdo, Miss Ward, and Messrs. J. S. Thompson and Norman MacEachern, who are great favorites with Wetaskiwin audiences, were rendered with very great

harmony and were heartily applauded. The violin solo by Mr. M. M. Touche of Lacombe, as well as the violin duet by Mrs. Chas. Condie and Mr. Touche, were exceptionally fine and it has been a long time since as good violin music has been heard here.

The concert concluded with a one-act play entitled "Charity Begins at Home." All those taking part did exceptionally well, and we would not venture to name any outstanding performers as each one acted her part in a very natural manner. Many who heard the play, emphatically state that it was one of the best ever staged in the Angus Theatre by local talent, and there has been an insistent demand that the play be put on again at an early date. The cast of characters is as follows:

Mrs. A. R. Dickson, Mrs. Judd, the hostess.

Mrs. H. E. Chalmers, Mrs. Chesley, the President.

Mrs. F. Westwood, Mrs. R. B. Powers, the Stranger.

Mrs. V. C. French, Grandma Gibbs, deaf but persistent.

Mrs. J. Dixon, Miss Luella, Eugenia, so sentimental.

Mrs. George Wallace, Mrs. Strong, a Suffragist.

Mrs. G. Beavo, Mrs. Mosker, gentle and good.

Miss H. Wood, Mrs. Day, a bride.

Mrs. Anthony Johnson, Meely, the hired girl.

This effort of the Ladies' Aid proved very successful, as nearly two hundred dollars have been added to the building fund of the church.

Roger Paton had the misfortune to fall off the roof of their residence on Monday evening and received a bad cut in the leg, just below the knee. Fortunately, the accident was not more serious.

BRIGHT FUTURE FOR ALBERTA HOG RAISING

A considerable proportion of the hogs raised in the Province of Alberta have been finding markets in British Columbia and in the Northwestern States. The adaptability of Alberta conditions to the raising of swine has led the federal and provincial Departments of Agriculture to study these outside markets to find out the kind or hogs that will find the most ready demand. A committee consisting of Mr. H. E. Schofield, representing the farmers of Alberta, Mr. S. G. Carlyle, Provincial Live Stock Commissioner, and Mr. A. A. MacMillan, Chief of the Sheep and Swine Division of the Federal Live Stock Branch, visited packing plants and meat merchants at the Pacific Coast on their quest for information. Owing to the development of the mining and lumbering industries in British Columbia, the committee reached the conclusion that this province could continue to absorb increasing quantities of Alberta hogs.

The demand for pork products was found to be decidedly favorable to meat of Wiltshire type. The lumbering and mining camps are found to be no longer satisfied with fat pork and bacon but insist upon having bacon of high quality. It was also found that the British Columbia take care of a large number of feeder hogs to go into the pens of Chinese hog feeders to be finished. The demand in the Western Pacific Coast States is also for hogs of the bacon type. Firms interviewed in these quarters reported a changing demand for leaner hogs weighing 180 to 200 pounds. The findings of the committee have been published by the Department of Agriculture at Ottawa in a pamphlet that sums up the situation in an expression of the opinion that Alberta producers would make a serious mistake if they do not continue systematically to breed for improvement toward this bacon type. The growing demand for bacon and pork products both in Canada and the United States it is stated to be toward the product of the bacon type hog. As an indication of the magnitude and importance of the hog raising industry in Alberta, the committee points out that the States of Washington, Oregon and California import annually fifty million dollars worth and upwards of live hogs and pork products.

EVIL REPORT

(By Walt Mason)

When I was young, a giddy-head, I beat a village slot machine by feeding it some coins of lead, which sort of course was base and mean. I meant no harm, I thought it smart, for I was but a thoughtless scout; alas, it broke my grandpa's heart when he came round and hauled me out. When I beheld the old man's grief I vowed I'd quit all sinful plays; of righteous youths I'd be the chief, and walk in virtue all my days. That was a long, long time ago, and I've been truly good since then; I'd have a record white as snow, and I would walk with saintly men. I thought I'd lived my error down by thirty years of blameless work, when I, opposing Green B. Brown, was candidate for county clerk. I thought no person would recall the error of that bygone time, or from the dust of dead years haul the record of my youthful crime. But scarcely had I sprung my name as one who wished a public trust, than men dug up that deed of shame from out the cobwebs and the dust. Loud speakers to the voters said, "What think you of a candidate who worked off coils of zinc or lead—will you support so vile a scake?" And there were posters on the walls, which made the statement plain and clear, that I had stood in justice halls long since, for shoving off the queer. There's no such thing as living down the crimes attempted or designed. Jones, Johnson, Robinson or Brown, will bear the ghastly facts in mind; and when we think we have erased the record from the minds of men, we are disgusted and amazed to find the truth dug up again.

When Your Stomach Groans With Gas Make This Test At Once

If you really want quick and lasting freedom from the usual annoyance of after-eating distress—try this NEVER FAILING test today! At trifling cost, get from your druggist a little Bismarck Magnesia—either powder or tablets—and take after your next meal. This simple pleasant test can be depended upon to prove its value in less than five minutes. In most cases relief comes instantly. Bismarck Magnesia is a harmless, non-laxative form of old-fashioned "Ming" alkali. When taken after meals, sweetens and neutralizes the dangerous acids that cause most stomach ailments. Ask your druggist for Bismarck Magnesia—and start the test today.

California, the Golden State, holds out many inducements to the traveler to make his home within her confines. She has her perpetual sunshine, the warmth of her climate, her beautiful scenery and fine cities and no doubt this is responsible for a great flocking of people from the lands of the north.

Now, however, there is another inducement, and no doubt motorists will perk up their ears at it—gasoline costs only 9½ cents a gallon. Compare this with 31½ cents paid by automobile drivers locally. In Los Angeles recently gasoline retailed as low as 9½ cents a gallon owing to the price slashing war which is now being waged among leading oil companies.

While this was the lowest reported, the bulk of the filling stations maintained a 12½ cent rate.

COMMUNICATION

(We do not necessarily endorse the sentiments advanced by this or any other correspondent under this heading.—Ed.)

To the Editor:

Dear Sir:

I read with much interest the write-up by my good friend Ex-Councillor, in your issue of March 7, and I think he should not be ashamed to sign his name. I would ask him, if he should write again, to be good enough to sign his name, as I know all the Ex-Councillors in the Municipal District of Edmonton and I would not like to blame the wrong one, as they are all good fellows. If Ex-Councillor should live out of this Municipal District, then I say, move in if you want a say.

I would advise my good friend Ex-Councillor to attend the annual ratepayers' meetings and give the Councilors his good advice. That is what those meetings are for, and not stay at home and write letters to the Press and criticize what the Council is trying to do for the best.

Now, I quite agree with some of Ex-Councillor's criticism, where he says "Is it good business generally to overspend?" I say it is not good business. But has the Council been generally overspending? I think not.

I have spent 15 years on the Council in my time and this past year is the first time I ever overspent, and if my good friend Ex-Councillor lives in this Municipal District, with the exception of one or two Ex-Councillors, he will know this, if his memory is good.

Now, my good friend, Ex-Councillor, you refer to where a Councilor may overspend to help me for re-election. I take it to be your meaning. Well, I do not think I ever overspent to get re-elected, and as I stated at the annual meeting, what I overspent last year, I would have that much less to spend this year, and as my term of office expires at the end of this year, I have very little money to spend, it looks bad for me for re-election. I had your opinion. Now, my good friend, Ex-Councillor, if you do not know the condition in Division 5 of this Municipal District which I represent, I would advise you that we have quite a few miles of road on low swamp land. With the average year it is impossible to do anything in it with a grader, and if one has to haul earth moved either with fresco or wagon from 75 to 150 rods to build a road, you should know it is pretty expensive work a good place to spend a lot of money and get very little for it.

Now, when I saw how it was drying up on this low land last fall, at the September meeting I took this up with the Council and asked to be allowed to do this work and to charge it up to 1929 estimates. This was agreed to by the Council, and if my good friend Ex-Councillor would come here when the roads dry up, I would be pleased to drive him around and show the grader work that was done on the swamp land, the ditches that were made to get rid of the water, and the grade that was put up so that people could get out with their cars and not be tied up half the summer with water all over the road. The past two summers it was so wet that it was a waste of money to try to do much on some of it. Now, my good friend, Ex-Councillor, this is how I came to overspend, and I have 12½ miles of this low swamp land graded, and besides I had 3 bridges which went to pieces late in the fall and which I had to repair. I thought they would carry over till this year, but with the threatening outlook and heavy trucks hauling grain over them, the floors got very bad,

and some of it had to be replaced. Now, my good friend, Ex-Councillor, this work was done in places nearly all over the Division 5 represent, and at least 75 per cent of the ratepayers got the benefit of it, either going to Millar or Wetaskiwin. I wish to advise my good friend, Ex-Councillor, that I have no pet and that no ratepayer in this Division has asked any special favor. I have nothing to keep from any one of them, and I would further ask my good friend, Ex-Councillor, or perhaps I should say, I will challenge my good friend Ex-Councillor to a public debate in this Division on this question he has raised. He can choose the hall or school, and I will arrange for it, and if there is any expense attached for hall or hall or school, I will pay it, and we will leave it to the ratepayers in Division 5 to be the judges.

Now, if you will debate with me on your subject, I would rather have it soon, or early in the summer, I would not like to leave it off till fall, or you might think I was trying to make a vote catcher out of it, and this I would not like anyone to think.

Now, Mr. Editor, I think my good friend, Ex-Councillor rather means his criticism as constructive rather than destructive, and as I was the heaviest overspender, I feel that it is something up to me to reply, so that it might clear the minds of any of those who were not at the annual meeting. I wish to say I have no excuse to make for overspending, and that I am speaking for myself as Councilor for Division 5.

Now, Mr. Editor, I wish to thank you very kindly for the valuable space I am taking up in your paper.

Yours very truly,

V. E. THOMPSON.

THE BEST VARIETIES OF VEGETABLES TO PLANT

(Experimental Farms Note)

The vegetable variety question is an age old one, and still we find many of the vegetable growers in doubt as to which variety of carrot, beet or pea to grow. This is not to be wondered at since there has been an enormous effort put forth to introduce something new in the variety line each year. No doubt it is confusing to growers when seed buying time comes, for in some cases the old varieties are given a lower rating, thus making the grower feel that the new variety is superior. It is true that improvement is needed in many of the varieties, and particularly so when regional conditions are to be considered, but there is time enough to change abruptly from the old varieties when the new sorts have been tested upon official grounds. In every Province throughout the Dominion of Canada there is located one or more Experimental Farms or Stations where variety testing has been conducted for a long period of time and where the varieties of recent origin are now under test, thus making it possible for growers in all parts of Canada to get first hand information regarding the merits of almost any variety.

To serve as a guide to the growers a list of standard variety names has been prepared. In this list will be found the proper name for each of the outstanding varieties. It is deemed advisable to do this to enable the public to know the correct name for each sort, and further to limit as far as possible the great duplication of varieties under other names. When new introductions are found, that possess merit, they will also be placed on this approved list, after they have been tested sufficiently and passed upon by the committee of horticultural experts.

Every person interested in seed purchasing should have a copy of this list and insist upon getting the varieties under their correct and accepted name. Copies of this list can be had by writing to the Publications Branch, Dominion Department of Agriculture, Ottawa, Ontario.

FORD MAKES AEROPLANES NOW

It is not generally known that the Ford Motor Company has for some considerable time been devoting its activities and resources to solving the problems facing commercial aviation. As a result of its investigations and tests, the company has at the present time, a fleet of commercial aeroplanes operating on a regular schedule between Detroit, Chicago, Cleveland and Buffalo.

On July 1st, 1928, Ford planes had completed 2,314 trips between Detroit

and Cleveland, and 1,954 trips between Detroit and Chicago, and 647 trips between Detroit and Buffalo. These trips combined totalled 10,631 flying hours, and covered 98,554 miles, of a distance of 2,377 miles around the world. Freight to the extent of 5,902,991 pounds and 31,260 pounds of U.S. mail were carried.

The Ford Tri-motored Transport has been built strictly for earning its way in the air by carrying loads swiftly, regularly and safely at a minimum of expense. The size of the plane has been selected to fit the greatest range of commercial use and the widest field of operations under present conditions.

Many women become weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

P. O. BOX 7, STATION "H"

MONTREAL

It is a twelve-passenger cabin-type transport monoplane with tank capacity for six hours fuel.

Three engines give a vast reserve of power for quick take-off and climb. One engine is located on the floor, one on either side of the cabin suspended under the wing. Any two of the motors will maintain flight with a full load.

The standard plane is powered with three Wright Whirlwind motors of 225 horsepower. It has a maximum speed of 112 miles per hour, a cruising speed of 95 miles per hour and a payload capacity of 2500 pounds. Where greater speed is required, the new Wasp, motored plane, which has a cruising speed of 115 miles per hour and a high speed of 135 to 140 miles per hour is recommended. This plane has a passenger capacity of sixteen in addition to pilot and mechanic.

All-metal construction features the plane. It is built entirely of duralumin, a copper aluminum alloy, rust resistant and as strong as structural steel but only one-third as heavy. This construction gives a known strength material and eliminates the danger of hidden deterioration of materials.

Gas is kept in tanks suspended in the duralumin wings, away from the engines, crew and passengers. This, with the other all-metal construction, removes the fire hazard under the most extreme conditions.

Every part of the monoplane is replaceable direct from factory stock. One of the many advantages of all-metal construction is that the parts fit.

All planes are fitted with dual slide-by-side control. Separate engine controls are mounted on a metal column between the pilots. The three engines can be worked at one time or changed individually.

Comfort of the pilot and passengers has been considered with the same care as has been given structural strength and operating economy. The entire fuselage is enclosed.

Ample windows permit good visibility and ventilation. Exhaust pipes lead the sound away from the cabin—and padding of the compartment further muffles it.

Large upholstered chairs assure riding ease for the passengers. Lights are provided for night flying. The

cabin is heated. Each plane is equipped with lavatory and washstand. There is an observation compartment forward.

Utmost simplicity is the keynote of construction, and "no" no factor of safety, reliability, comfort or efficiency has been spared.

The Times does commercial printing at right prices.

The Week at Ottawa

(By Wm. Irvine, M.P.)

My last week's deal exclusively with the matter of water power and especially with that part of the discussion which related to the Seven Sisters Falls in Manitoba. Since this debate lasted for six days, I feel justified in making a further reference to it.

The Seven Sisters Falls is a power site on the Winnipeg River. It is said to be capable of developing 300,000 horse power. The Manitoba Government decided to give this power site to a private company, but while the company was negotiating with the provincial government, the Manitoba representatives in the Federal House took the matter up with the Dominion Government, which Government still had control over the resources of the Province concerned. Mr. Stewart gave a promise, both to the Manitoba Members privately and publicly to the House of Commons, that he would not issue a license to a private company until another session of parliament. Meanwhile, the negotiations which had been proceeding between the Government of Manitoba and the Dominion Government regarding the natural resources arrived at its final stage, which was, that the natural

How to Play BRIDGE

Series 1928-29 by Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1928, by Hoyle, Jr.

ARTICLE No. 10

There are a number of differences between Contract and regular Auction and this is especially true of take-outs of a no-trump. The following hand is a good example:

Hearts—K, 8, 7, 6
Clubs—J, 8, 7, 4
Diamonds—A, Q, 7, 2
Spades—A, Q, 7, 2

Y Z

Hearts—Q, 10
Clubs—A, Q, 6, 5
Diamonds—A, Q, 7, 2
Spades—A, Q, 7, 2

No score, first game. Z deals and bid one no trump, the correct bid either in Contract or Auction. A passed and Y has a problem to consider.

At Auction, Y should bid two spades. This bid is justifiable because the 4-4-4-4 distribution of the hand is very dangerous for no trump and usually is found to work out better at a suit bid, particularly at the suit that best fits the combined hands of the partners.

At Contract, however, it is very doubtful if this two spade take-out is

Problem No. 12

Hearts—A, 9, 4, 2
Clubs—J, 9, 3
Diamonds—A, K, 8, 4
Spades—J, 4

Y Z

Hearts—J, 8, 7
Clubs—A, Q, 10, 8, 4
Diamonds—A, Q, 7, 2
Spades—10, 2

No score, rubber game. Z deals, bid one no trump and all passed. If A opened the eight of clubs, how should Y play the hand to go game?

One of the interesting features of Contract is the proper bidding of shams. Here is a hand that offers some good opportunities:

Problem No. 13

Hearts—8, 3
Clubs—Q, 10, 8, 6, 3
Diamonds—K, Q, J, 7, 6, 3
Spades—none

Y Z

Hearts—6
Clubs—Q, 9, 5, 3
Diamonds—9, 4
Spades—none

No score, rubber game. At Contract, Z deals, bid three no trump and A passed. What should Y bid? Think this over.

Problem No. 14

Hearts—A, 10, 7, 6
Clubs—A, 10, 7, 6
Diamonds—A, 10, 7, 6
Spades—A, 10, 7, 6

Y Z

Hearts—6
Clubs—Q, 9, 5, 3
Diamonds—9, 4
Spades—none

Hearts are trumps and Z is in the lead. How can Y win six of the seven tricks against any defense? Solution in the next article.

the Dominion Government still holds power. The debate centered around the question of provincial rights and was, therefore, much less illuminating than it might have been.

The discussion was prolonged, I think, unduly. The party element is difficult to keep out of a debate of this character. The Conservatives were anxious to shoulder the entire responsibility on the department of Mr. Stewart; naturally enough Mr. Stewart, on the other hand, to escape, whether guilty or innocent, the battle of words went on. The Budget debate was postponed to give right of way to the Woodworth Resolution and not until about five o'clock on Wednesday, the 6th, did it come to a vote.

It would not be interesting were I to give all the amendments and amendments to amendments, and points of order after points of order raised by members of members in regard to them. Here is the meaning of the motion as amended by a sub-amendment, which finally passed the House: No water powers in Manitoba, Saskatchewan and Alberta shall be alienated unless they come under the administration of those provinces under powers to be granted by this parliament similar to those granted to the Province of British Columbia to administer the water powers in the railway belt as set forth in the Railway Belt Water Act. The Government accepted this amendment but some of the Manitoba men were not satisfied, and Mr. Bird moved another amendment which intended to grant no water power leases in provinces not now in control of their resources to any private company, until such an agreement has passed the legislature of the province in which such power site is situated. This amendment was lost, being defeated on a party vote with the United Farmer and Labor Members voting with the Conservatives in favor of the resolution.

Another resolution of great interest to Western farmers passed the House on Wednesday after a brief discussion. This resolution was originally moved by Mr. Miller, but amended by Mr. Donnelly to read as follows: "In the opinion of this House, consideration should be given to including protein as a factor in the statutory definitions applying to all contract grades of wheat in the western inspection division and that this matter, together with its effect on existing methods of inspection and grading wheat, be referred to the select standing committee on agriculture and colonization and report thereon."

When the agricultural committee reports back to the House, there will, no doubt, be a prolonged debate on the grain grading issue and on protein as a factor. This question, can no longer be put off and must be faced and some better grading method must be found. The grain expert in Ottawa has made many experiments with flour made from grades 4, 5, 6 and feed wheat. The difference in quality is given in percentages and are so small as to be negligible. We have had these flour made in the House of Commons, and no man could tell which loaf was made of feed and which from No. 4. Experiments like this go far to prove the contention of farmers, that the spread between grades is too great and that the actual food values of the commodity should be reckoned with in grading.

It is hoped that the experts now engaged in these experiments will be able to report to the agricultural committee at an early date, and that some safeguard may be legalized before the next crop reaches the market.

The debate on the Budget which was introduced one week ago today is now in progress. My next letter will deal with the Budget as well as with criticism of it as offered by the various groups in the House.

When Henry Labouchere was an attaché of the British embassy in Washington, an official American demanded to see the "boss."

"You can't—he is out," replied Labouchere, "But you can see me."

"You are a good fellow," replied the American. "I must see the boss; I'll wait."

"Very well," calmly said Labouchere, continuing his writing.

After a couple of hours, the American became restless and said: "How long do you reckon it will be before he comes?"

"Well," said Labouchere, "he went to Canada yesterday. I should say he'll be here in about six weeks."

REPAIR WORK

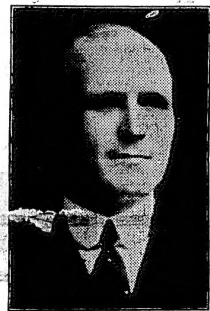

The Great-West Canadian Folksong, Folkdance and Handicrafts Festival, to be held at Regina, March 20-23, will not be devoted entirely to the cultures of other than people of British origin, notwithstanding that eighteen different races will be represented. Here we have some of Jean Gaud's pupils in a Welsh Folk Dance. Scotch and English folk-songs and dances will also be interpreted, and the Irish, too.

COMPLY WITH REQUIREMENTS OF DOMINION INCOME TAX ACT

Once again, Hon. W. D. Euler, Minister of National Revenue, is using newspaper advertising to assist taxpayers in complying with the requirements of the Dominion Income Tax Act.

In this issue an advertisement appears reminding the public of the law which stipulates that certain information must be in the offices of the Income Tax Inspectors by March 31 next. This information is required

HON. W. D. EULER
Minister of National Revenue

from employers, corporations, and trustees or persons acting in a fiduciary capacity. It applies to year ending December 31, 1928.

For instance, employers have to file a return giving the amounts paid each person in salaries, bonuses, commissions, and fees where the amount was \$1,000 or more, or where the salary or wages was at a rate of \$1,500 or more. Corporations have to file the names of those who were paid dividends, whether in cash or stock, and the amount of each. Persons acting in a fiduciary capacity, are required to file details of the trust they represent.

Those mentioned in the act as having to produce this information are asked to secure the proper forms from the nearest Income Tax Office, fill in their forms according to instructions, and mail them to the Income Tax Inspectors at these offices before March 31. These are information forms only, and no cheques are sent with them.

Officials of the Department fully appreciate the trouble in making out these forms, but are doing everything in their power to facilitate matters by reminding the public in plenty of time respecting the demands of the law.

The total collections under the Income Tax Act for last year are some millions of dollars ahead of the year before, in spite of a ten per cent reduction in the tax. Mr. Euler attributed this increased collection to three things:

1. More efficient methods of collection.
2. The increased prosperity of the country.
3. Advertising.

W. C. T. U.

The president of Brown University has drawn attention to the obvious character as expressed in college songs. "Come, landlady, all the flowing bowl, until it doth run over" is no longer heard. But the college songs of our day are athletic, a summons to hardship and struggle, "till the last white line is crossed." He says in part, "Intoxication at last is seen to be like glutinous, silly and degrading and bestial. In the same way, gambling, once the recreation of gentlemen, is seen to be not so much wicked as futile and absurd, undermining all honest industry and all self reliance. We have come to see, if we have any sense, that who relies on alcohol for his inspiration, and on gambling for his money, has no right to be in any modern college, and has no place in any respectable society. What was once the mark of a gentleman is now the badge of a fool."

Rev. C. Ross

ARE YOU INTERESTED IN BOYS?

If you are, support the Boy Scouts. The aim of the Boy Scouts' Association is to develop good character in boys and to prepare them to be good citizens—training them in habits of observation, obedience and self-reliance; inculcating loyalty and thoughtfulness for others.

Scouting is a recreation. It is mainly a game. It leads boys to play the game—the game of life, in the spirit of fair play under a sense of honor. Honor is the word that rings through a Scout's life. The first law is "A Scout's honor is to be trusted."

The motto of the Association is "Be Prepared," which means that the Scout must always be in a state of readiness in mind and body, to do his duty and meet any emergency. Part of the Scout's promise is "Do a good turn every day."

The scouting program is non-denominational. The Scout promises to do his duty to God and the King—hence he must be loyal to his Church, whatever that Church may be.

Scouting does not take the place either of religious instruction or of school training. Scouting makes good health, good manners, good habits and good character.

The first Wetaskiwin Troop has a roll of 32, an average attendance of 27. The boys have made splendid progress, there being 11 2nd Class Scouts; four boys will be 1st Class Scouts in another week; and several proficiency badges have been won. All this taking place in less than a year. They meet every Monday at 7 p.m. in the Parish Hall.

The Troop wants to go to camp this summer. Help the Scout Local Association and thus help the boys of your own town. The members of the Executive and the Association are this week making a drive and canvass for further members. It costs only \$1.00 a year to belong to the Scout Association of Canada. You will be called upon by some member of the Committee.

Some groundless tradition or custom evokes, An ever increasing array of Scotch jokes; Their output exceeds all the cracks at the Port.

Whereas the dear public has chuckled and roared, And it's about time some compassion was felt For the braw, uncompaining, dependable Celt—

All Scotchmen aren't stingy we very well know, No more are the English unbearably slow; All fighters don't come from the Emerald Isle,

The girls of Parnie have no corner on style; The race which bore Shylock was never alone In gathering ducats to keep for its own—

Correct these impressions, and put no more blots Upon the escutcheons of suffering Scots.

Advertise in the paper that circulates all over the district thoroughly. Use The Times Want Ad. columns.

GRADING OF GARNET WHEAT DISCUSSED BY OFFICIALS

A meeting of representatives of Canadian wheat producers, millers and Government officials, called by the Minister of Agriculture, was held in the office of the Hon. Dr. Motherwell on February 15th, for the purpose of giving consideration to the problem confronting the farmers, millers and grain dealers of this Dominion in connection with the handling of the Garnet Wheat that has taken such a prominent place in the grain crop of Western Canada this year. Added importance has been given to the grade that should be allowed Garnet wheat by reason of the early frost which struck the prairies in 1928, causing the late-maturing varieties of wheat to be more or less seriously injured, whereas of the early-maturing Garnet, the greater proportion suffered no frost injury.

In 1927, the Inspection Department of the Board of Grain Commissioners decided that the maximum grade that should be allowed for this new variety, Garnet, should be No. 2 Northern. In deciding upon the maximum grade that should be allowed for 1928, they concluded, after a very careful study of all the data available, that no change from the grade allowed in 1927 should be made. This fact of the impossibility of having Garnet grade higher than No. 2 Northern, although fully matured, undamaged by frost, and of good quality, caused a great deal of dissatisfaction among the farmers of the western provinces, not only among those who themselves grew Garnet wheat this last year, but also among their neighbors who had seen the results obtained, and considered that an injustice had been done Garnet growers. Considerable discussion of the question has resulted, and the dissatisfaction and discontent have been expressed in numerous letters to Government Departments and to Members of Parliaments, as well as in newspaper articles.

In addition to this, the millers of this country had, on different occasions when asked by the Federal or Provincial Departments, expressed the opinion that Garnet wheat did not possess so high a milling value as did Marquis, and they were, to some extent, held responsible by the producers for the low grading to which Garnet had been subjected.

At today's meeting, it was stated by the millers that Garnet was a rather difficult wheat to mill, and consequently they were somewhat hesitant about milling it for either the domestic or export flour markets. The millers voiced a number of criticisms of this variety in this connection, the two most important being the difficulty in tempering the wheat before milling, and the color of the flour produced.

The difficulty in tempering was not of so much consequence when the wheat was separate and handled as Garnet, but much of the wheat, as it reaches the mills, is apt to include varieties very wide apart in tempering quality, and when so mixed it was found almost impossible to temper Garnet wheat properly, or secure from it a satisfactory return in flour output and quality.

The farmers' dissatisfaction was due, in no small measure, to the fact that they judged that mixing practices which were so strangely in evidence in 1927, would very probably be equally in evidence in connection with the 1928 crop, and they felt that consequently, Garnet wheat, for which they received payment on the basis of No. 2 Northern, might very well find its way into a No. 1 Northern mixture, or, at any rate, be used to raise a No. 3 grade wheat to No. 2.

After a thorough airing of the views of the different interests represented, the meeting devoted itself to finding ways and means for relieving the situation.

It was suggested by the millers that possibly the placing of Garnet in a special class, as is the case with Kota, Durum, etc., and giving it grades under that class, might solve the problem, but this was objected to by the producers on the ground that, in spite of everything that could be done, they thought that mixing would take place. They further pointed out that increasing the classes meant more trouble

for the graders, while putting Garnet in a class by itself would involve the overcoming of a prejudice on the part of both foreign and domestic buyers, which would be sure to exist against a new variety.

THE NECESSITY OF WATER AND MINERALS FOR POULTRY

(By the Alex. Taylor's Hatchery, Winnipeg)

We think of feed primarily in the production of eggs, and sometimes forgetting, however, that the eggs are composed of 65 per cent water. A liberal intake of water will increase egg production by stimulating feed consumption and giving the necessary for egg formation. Warm water is one of the primary essentials of winter egg production. When the flock goes off feed in a cold spell, egg production drops considerably. This is caused by the water being too cold or none at all. Give your hens lots of warm water and have them produce eggs when prices are high. Over one third of the solid part of a hen's egg (that is one third of all the egg except the water it contains) is composed of two minerals—lime (calcium) and phosphorus. These are found in very small amounts in most farm feeds. The other two-thirds are made up chiefly of carbon, nitrogen and sulphur. These minerals are abundant in your ordinary feeds.

Poultrymen have long known the importance of lime for egg shell and know the need of phosphorus in producing eggs. Oyster shell, this natural mineral feed is produced from vast deposits of lime and phosphorus in the exact proportions suited for poultry needs. (Tri-calcium phosphate is a food). Oyster shell is free from conglomeration of chemicals or drugs. It is a food and should be used as such. Feed oyster shell to your poultry man and feed, it builds up bones in your young chicks, develops large frames for heavy egg layers, supplies the

DON'T READ THIS

If your subscription is paid, it is, you can tell by examining the date on the label. This date shows when your subscription was paid. During September we were very few indeed, but we understand the cause—the grain is not yet harvested and money is very tight. But October should be better, and we do not wish to harass anyone with a little bill like a \$2.00 subscription. We believe most people, as soon as they can spare the money will be glad to pay this small item. We appreciate the difficulties of this season's financing, and have endeavored to pay as little about subscriptions as possible. But we expect our delinquent subscribers to "come through" just as soon as they can.

The Times' subscription list is open at all times for inspection by its advertisers. Remember this when you wish to advertise.

McCormick-Deering News

"Good Equipment Makes a Good Farmer Better"

Published by N. OSWALD
Wetaskiwin Farm Equipment Man

Watch for the "News" each week. Suggestions and news items invited.

N. OSWALD, Editor.

A Helpful Hint
Collect your soft, clean wood shavings, and put them in a large shallow box; be on sunny days your chickens may put them in. If you will brown and crush egg shells and sprinkle these in the ashes, the hens will scratch busily after them. In winter chickens have no opportunity to scratch the soft earth and resent the frozen garden that keeps them from dusting.

Tractor driven horse drills with roller bearings, extra large seed hoppers, accurate land measure, and high, strong wheels. The name?—Oh yes! McCormick-Deering.

Selling an old lady a gallon of gasoline with which to start the kitchen fire nearly always results in the sale of a new kitchen range.

Levi Evans says he can drill 60 acres a day with his McCormick-Deering 25-horsepower drill pulled by a tractor.

Married aviators should be happy because their wives always look

up to them. And the noise of the propeller prevents their hearing the back-seat driver.

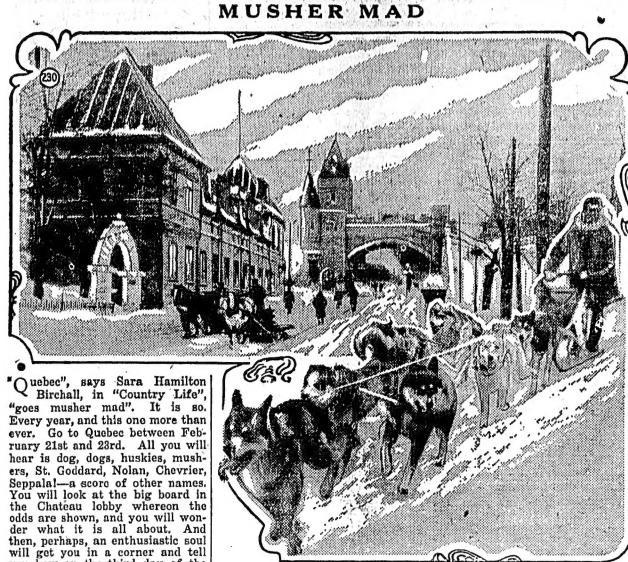

The coming crop drops through the boots of your grain drill. A good deal depends on the way it is dropped. You eliminate all possible risk of uneven sowing and ripening. If you will use McCormick-Deering Front Seed Delivery Drills.

A friend of ours says he is painting the inside of his chicken coop so his hens won't pick the grain out of the wood.

Do not take our word for it. We are expected to boost our line, but if you want to get the truth about McCormick-Deering Front Seed Delivery Drills, ask any owner in this vicinity. We shall rest our case on what they say.

This hint our mothers originally passed along in an advertisement: "When the baby is done drinking, it should be unscrewed and laid in a cool place or under the tap. If the baby does not thrive on fresh milk, it should be boiled."

Ball bearings are saving the world from friction and hard work. This is especially true of the McCormick-Deering Ball-bearing Cream Separator.

"Quebec," says Sara Hamilton Birchall, in "Country Life," "goes musher mad." It is so. Every year and this one more than ever. Go to Quebec between February 21st and 23rd. All you will hear is dog, dogs, huskies, mushers, St. Godard, Nolan, Chevrier, Seppala—a score of other names. You will look at the big board in the Chateau lobby whereon the odds are shown, and you will wonder what it is all about. And then, perhaps, an enthusiastic soul will get you in a corner and tell you how on the third day of the last derby, the man who was considered in the running only for second place, held up by a freight train so long that his dogs shivered and began to stiffen, but won the 120 mile three day grind by a short minute or so, and how he was cheered and chaired, and how they come, these mushers, from all parts of the North Country, with their dogs and hounds and huskies. You will pick your dogs, Siberians, Alaskans, or just plain dogs, and before the last entrant has started on the first lap on the first day, the fever will have caught you. You will see the first team drive pasting home, the next and the next; the heroes

of Nome, the trail dogs from Le Pas, fuzzy animals who know the Quebec woods trails and teams of dogs bred, reared and trained for this one great derby, dogs you wouldn't want, worth hundreds, dogs you could love, but who only give allegiance to him; dogs in fours and fives and sixes, straining, eager, panting dogs with forty miles behind them and eighty before. Then you too are musher mad, and the rough, shaggy individual in fur and wool, whose moccasined feet had not yet fitted into your own over the things becoming is in the aura of a hero and a knight. You scream

his name as he mushes past. You hold your breath as the minutes tick before the next arrival. A team of mastiffs, greyhounds or mongrels, swings round a corner into sight. Their time is close. They have one minute in which to reach the goal and win the first lap. You too, are musher mad. You watch the bulletin boards with excitement and voraciously exchange the gossip of the racing stables. Then, when the great exhibition of strength and endurance is over, you can perhaps settle down to enjoy Quebec herself and those winter sports in which you are permitted to take a person's life if not more strenuous part.

RURAL HEALTH UNITS

Up until the present time, the knowledge which we possess concerning the prevention of disease has been applied in cities much more than it has been in the small town and rural areas. Practically all cities of any importance have organized health departments, with trained workers in charge of the various activities carried on by the Department.

The small town and rural areas, as a result of the lack of health work, are, in general, not as healthy as the cities. In other words, those who live in the cities are more free from preventable diseases, because the cities have organized health departments which protect the citizens from preventable diseases. It has been the hope of those who have given thought to this problem of rural health, that some scheme might be devised whereby those living outside the cities would receive the same measure of protection from disease as those living in the cities.

The country or rural health unit seems to offer a practical means for obtaining this most desirable end. The idea is to organize, in a country or some similar area, a health department which would be staffed by full-time trained workers. That is, the unit would be served in a healthy way by a health organization similar to that which has done so much good in the cities. By combining the rural areas and small towns, there is a sufficient population to support such a service. The health workers in such a unit must be trained and must devote their whole time to this health work.

The plan is well started in some provinces. It is becoming practical for those living outside the cities to secure organized health protection. They must realize what it means, however, and must be willing, as have the city dwellers, to pay the cost. It costs money to keep well, but it costs far less to keep well than to be ill.

Questions, concerning health, addressed to the Canadian Medical Association, 124 College Street, Toronto, will be answered personally by letter.

The Times does commercial printing at right prices.

THE ROARIN' GAME

The following is taken from the Edinburgh Scotsman: Already curlers throughout Scotland have enjoyed once again the pleasure of the "roarin' game." Ponds both large and small have been bearing, and all classes from hinds to cottagers have been "soopin' her up" with a will.

Appropos the "roarin' game," part of the game, a curling enthusiast tells me an incident on a Lowland pond. His skip, a stalwart who believed in keeping the inner man well fortified, arranged that his rink should be supplied during the course of the day with a savory stew and "champt tatties" (mashed potatoes). Two large pots containing the viands were brought to the scene of play by the farm lassies, who, in the innocence of their hearts, placed the rattles within easy reach of players and covered the pots with some overcoats "to keep the dinner warm."

Needless to say, when the coverings were removed some time later, the "denner" had disappeared through a gaping hole in the ice! "No bulls, Bashan roared louder," says my informant, "than did our skip that day."

I can well believe it.

The Times asks its readers to make the local news columns their own, to the extent of contributing social and personal items which are of interest. If you have friends visiting you, there is no nicer compliment you can pay your guests than to take the trouble to see that their names are mentioned in your local newspaper. Call at or phone The Times—our number is 37—or send the item by mail.

THE ROYAL CROWN SOAPS LTD. WINNIPEG

The Farm Seed Plot

By Clyde C. Gilles, Strathcona, Alta.

Farmers are realizing more and more the necessity for using seed of a high grade. In the past, many were satisfied to take some of their previous year's crop, clean it in a fanning mill and then use it for seed. Luckily, a great many of the men on the land are farming in a more scientific way and wish to take advantage of the work done by plant breeders and others who, by developing different varieties of cereals have evolved grains possessing differences in times of maturity, disease resistance, and other qualities that make for bigger, better, and surer crops. Again, many farmers realize that if seed of the highest quality is to be obtained, it requires a combination of cultural methods and the intelligent use of cleaning machinery. The production

of high grade seed in commercial quantities is the work of specialists and had best be left to them, but there should be on every farm a small plot, say from one to ten acres, devoted to the production of high grade seed to supply part, if not all of the farm's seed requirements.

To obtain uniformity in the crop, uniform growing conditions must exist in the field, so choose for your seed plot a level piece of land, of uniform soil quality, sufficiently removed from sloughs, timber bluffs, or other agencies to prevent any part of the plot being specially favored or retarded, and it is obvious that the land should be free from weeds. The plot must be sufficiently removed from fields of the same kind of grain to prevent fertilization. This distance should not be

less than fifty feet. The size of the plot depends on two factors—the size of the plot that the farmer can successfully handle and the seed requirements of the farm. The beginner is well advised not to be too ambitious. For a start, have your plot too small rather than too large. An indifferently handled plot will give poor results and be disappointing and discouraging.

The choice of seed for this plot is most important and the owner should not be satisfied with anything but the best. Each farmer should know the variety of seed best suited to his requirements and care should be taken to choose a variety that is suitable. Much information is available as to the qualities of the different varieties and an enquiry directed to the University of Alberta, the nearest Experimental Station, or Agricultural School will bring a wealth of information.

Two methods of seedling exist which for lack of better terms will be referred to as broadcast and intertilled. The broadcast system is the system usually followed in ordinary farm practice, while the intertilled system consists of seedling grain in rows spaced with intervals between the rows greater than the usual interval employed. The space between the rows is kept free from weeds by cultivation. When the broadcast system of cultivation is employed, seedling should be done early enough to permit the crop to reach full maturity before any damaging frosts occur and the rate of seedling should be slightly less than usual in order that the development of the plants will not be retarded by overcrowding. Other than these two points, no hard and fast rules can be set and each individual must be guided by his own experience in matters such as depth of seedling, etc.

Those who intend to follow the intertilled method of seedling should be well advised to write the University of Saskatchewan, Saskatoon, and obtain from them a copy of their bulletin, "Summer Fallow Substitutes for Saskatchewan." This excellent bulletin gives much valuable information. Several farmers in Edmonton district have employed this system and their results have proved the value of this method for seed production. The usual practice is to seed the grain in double rows spaced 30 inches apart by plugging four runs of the grain drill and leaving the next two open.

When the intertilled method is followed, the time of seedling should permit of the plants having sufficient time to reach maturity before damaging frosts occur and the rate of seedling should equal or be slightly greater than the usual rate. In the Edmonton district, crops sown with the drill set to seed at the rate of two bushels per acre for wheat and barley and four bushels per acre for oats, have been successful. While this rate of seedling may seem heavy, it must be remembered that only one third of this amount of seed is actually sown per acre.

It is interesting to note that successful crops of wheat, oats and barley have been produced by following the intertilled system in this district and that the yields equal if not exceed, the yields from grain sown broadcast. For the cultivation of intertilled grain crops, the corn cultivator, the potato cultivator, or if the plot is small, the hoe or hand cultivator can be used. Cultivation must be done sufficiently often to prevent a heavy growth of weeds between the rows. If the weed growth gets too great a start, it is almost impossible to destroy the weeds without damaging the crop.

In both the broadcast and intertilled systems, the work of weeding will be considerably lessened if the crop is lightly harrowed after it has come through the ground. Frequently through the growing season, the seed plot should be carefully examined and all weeds removed. It should be realized that by impurities are meant, weeds, other kinds of grain, other varieties of the same kind of grain, diseased plants, and plants which for any reason are abnormal. Only strong, healthy, normal plants should be allowed to remain in the seed plot.

The harvesting of the plot should not be started before the crop has reached full maturity and harvesting methods follow those in general use. In all operations connected with the seed plot, care should be taken to clean all implements used in order that a dirty implement will not introduce impurities. In threshing, particular care must be taken so that the

season's work is not lost by using dirty racks, dirty separator or dirty granaries. All racks, wagons and the separator should be carefully cleaned and all weed seeds and straw or grain removed. Do not thresh too close so that the grain is not cracked or hulled. Soundness is of paramount importance in good seed. To prevent contamination in granaries, thresh the grain into clean sacks.

A brief comparison of the two methods of cultivation outlined may be of interest. The advantages of the broadcast method are that this method is the one most usually followed and therefore is familiar to all, it saves space, and the labor of cultivation is less than in the intertilled method. The intertilled system produces more crop per bushel of seed sown; in wet years there is less tendency towards lodging of grain, inspection and roguing can be more easily carried out on account of the spaces between the rows, and in dry years, more moisture is available for the growing crop. The time taken for the crop to mature appears to be the same for both methods.

In conclusion it should be mentioned that apart from the advantage of producing a high grade seed crop, a carefully managed seed plot provides a keen interest in and an appreciation of good grain that does not come from the production of purely commercial or feed crops.

Issued by Better Seed Committee under direction of Alberta Department of Agriculture.

Here and There

24. In 1921 the Canadian Pacific paid out \$2,000,000 from freight revenue in making out its monthly balance. In 1927 it paid \$700,000, a decrease of \$1,300,000, although in the same period the freight revenue had increased by \$15,000,000. Better freight handling did it.

The stonework and roof of the partition of the Royal York Hotel have been completed, and there appears every likelihood that the great building will be open to the travelling public by June 1. This hotel is the largest and tallest in the British Empire.

Some idea of the world-wide area over which the Canadian Pacific operates may be gathered from the fact that in making out its monthly balance it is necessary to turn fifty-nine different foreign currencies into dollars in order to get an accurate result in Canadian money.

Wireless is now being used to aid in the protection of forests against fire. The Ontario Provincial government planes are equipped with the latest apparatus with a radius of 400 miles, so that the headquarters may be readily communicated with and immediate steps taken upon the discovery of an outbreak.

"The principle of rapid freezing has such qualifications that there seems to be little room for doubt that it is going to revolutionize the fishing industry," stated W. A. Found, deputy minister of fisheries. "We intend to make this experimental station at Halifax of the utmost value to the whole industry."

W. J. C. Madden of Calgary, is making arrangements with the Canadian Pacific Express Company for the transportation of whitefish caught in Great Slave Lake from Edmonton to Chicago. It is intended that the distance from the fishing ground to rail head will be covered in winter by five-ton trucks operating upon the thick ice of the Slave and Athabasca Rivers, traversing country that would otherwise be difficult to cross.

A new and strange form of wild-fowl is being imported into Alberta by the Calgary Fish and Game Association, which has arranged to secure 2,000 Mergansers and Chinese ring-necked pheasants. The birds are to be liberated this summer throughout the southern part of the province, where 1800 were placed last season as part of the Game Association's plan for re-stocking Alberta's game bird supply. With all these Oriental birds loose the ancient Yellow Peril seems more imminent.

Clipping as much as an hour and a half of her schedule eastbound, and half an hour westbound, the Trans Canada Limited, crack flyer of the Canadian Pacific Railway running between Montreal, Toronto, and Vancouver, will be further remarkable this summer by reason of a "solarium" car, containing baths and a special sun-room, that will be included in her luxurious equipment. The Mountaineer, another speedy summer train, running between Vancouver and Chicago will also have "solarium" cars, and run on faster time. The Trans Canada makes its first run on May 12, and The Mountaineer on June 10. The former train makes 140 trips during the summer season covers a distance equal to about fifteen and a half times around the world.

Was Laid Up With Bolls On Her Back
 Mrs. Vincent Mulso, Tukson, N.S., writes:—"Last summer I was laid up with bolls on my back. I could not lie down, or do anything. I had fifty-three of them. One of my friends advised me to try

BURDOCK BLOOD BITTERS
 I got a bottle and soon noticed a great deal of difference, so I took four bottles in all, and I am in good health and have never had any sign of a boll since."

Better Yields—Better Grades—Better Prices

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain

in order to reduce the heavy annual losses sustained by sowing inferior seed.

Farmers can co-operate by:

1. Using registered seed wherever available.
2. Using at least high quality commercial seed.
3. Having seed tested for germination and purity.
4. Treating seed for smut.
5. Thoroughly cleaning all grain intended for seed.
6. Seeding only varieties of recognized quality and varieties suitable to the district.

Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, the Wheat Pool, Banks, Commercial Grain Firms, the press, and many other organizations are working in co-operation with a—

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

Provincial Weekly News Bulletin

(Issued by Publicity Commission, Government of Alberta, Edmonton.)
Per Capita Wealth High in Alberta
Alberta stands second among the provinces of the Dominion in its per capita national wealth, being exceeded in this respect only by British Columbia, according to figures just issued by the Dominion Bureau of Statistics. As regards the provincial distribution of wealth, Ontario ranks first with an estimated agricultural wealth of \$9,130,189,000 and Quebec second with an estimated wealth of \$8,068,108,000. The western provinces, however, lead in per capita wealth. British Columbia holds first place with a per capita wealth of \$3,844. Alberta second with \$3,608; Saskatchewan third with \$3,559 and Manitoba fourth with \$2,967. These figures may be compared with \$2,902 for Ontario; \$2,598 for Quebec and \$2,842 the per capita wealth for the whole Dominion.

Interest Shown in Better Seed Campaign
Farmers throughout the province and organizations interested in the improvement of agricultural conditions are taking a keen interest in the campaign directed by the Department of Agriculture to encourage the use of high quality seed grain for Alberta's 1929 crop. A number of radio addresses will be given from Edmonton, Red Deer, Calgary and Lethbridge during the coming week, while 10,000 posters and 50,000 leaflets are being distributed to farmers in all sections of the province. A marked improvement

included in Jasper National Park, while the latter park will also be increased by the addition of 17 square miles. Jasper Park, the largest in the province, formerly had an area of 5,380 square miles and Rocky Mountain National Park was 2,751 square miles in extent.
Good Prices Paid for Irrigation Lands
Very satisfactory returns were received for 30 parcels of irrigation land disposed of by auction at Tubor on Saturday last. The record price of the sale was \$98 per acre paid by N. Jensen for a parcel of land in the vicinity of Banff.

British Capital Interested in Salt Development

Two important companies, one of which is the Canadian Industries Limited, representing the Maund interests of Great Britain, are showing considerable interest in the salt deposits near Fort McMurray, it was announced by Premier Brownlee to the Legislature during the past week. Interest in this kind is regarded as a very good indication of the increased attention which will be paid to the development of the mineral wealth of the northern part of the province.

Club Work Supervisor Appointed
The appointment of G. S. Black as supervisor of Boys' and Girls' Club work for the Department is announced by Hon. George Hoadley, Minister of Agriculture. Mr. Black, who has had considerable experience in this type of work in Manitoba and later in live stock promotion work with the Dominion Live Stock Branch in Alberta, is well qualified to take charge.

Here and There

(223)
Large cargoes of wheat are being shipped to Japan and the Orient through Vancouver these days. It seems like sending coals to Newcastle to send flour to "The Flowery Kingdom."

Some foundation for the old nickname "woolly" west is found in the report that Alberta's wool output for 1928 amounted to 3,023,341 pounds. The Dominion production over eighteen and a half million pounds.

Steel is replacing wood in freight service on the Canadian Pacific Railway as 7,500 box cars now on order for the company will be of steel construction. They will have a capacity of about 2,000 bushels of grain and a load of 120,000 pounds.

Fur-farming is developing many branches, one of the most recent being the organizing of Manitoba of the Manitoba Muskrat Breeders Association. The body plans to study muskrat breeding conditions and to investigate all phases of the industry.

In a recent speech at Kitchener, Ontario, E. W. Beatty, chairman and president of the Canadian Pacific pointed out that the average freight rate per ton per mile in Canada is about 5 1/2 per cent lower than in the U.S., and that the average of Canadian grain rates is 40 per cent lower.

The Trans-Canada will cross the continent in an hour and a half less time eastbound, and an hour less westbound than it did last year. This does not mean that Canada has got any smaller, but that the Canadian Pacific Railway is running the famous flyer on an improved schedule.

Penny postage, inaugurated at Christmas, is working well and bringing about a notable increase in letter mails from Canada to the British Isles, according to federal postal officials. It is estimated that the increase in the course of a year would be such as to offset the \$200,000 estimated reduction in revenue by the penny rate.

In Manitoba, there is one tractor for every 4 1/2 farms; in Saskatchewan, one for every 4 1/2 farms; and in Alberta, one for every 7.5 farms. If all the tractors were hitched together, how long could it take a garage mechanic to reach the moon.

For the sixth successive year Dean Sinclair Laird of Macdonald College, Ste. Anne de Bellevue, Quebec, will conduct an all expense tour across Canada and back, starting from Toronto on July 22, and lasting for 21 days. The party travel in a special train with a baggage car filled up as a sixty-foot dressing-room.

Equipped with a bow-rudder, a new device that will aid in navigating the harbours of Victoria and Vancouver and the waters of the British Columbia coast, the Princess Norah has arrived on the Pacific seaboard to join the fleet of the B. C. Coastal services of the Canadian Pacific Railway. She is the eighteenth ship to be built for this work and has just been constructed at the shipbuilding yards on the Clyde in Scotland.

Husband Was Afraid She Was Getting Pneumonia

Mrs. Charles Edwards, R.R. No. 2, Wheatley, Ont., writes: "Last winter I was bothered with a very bad cold, and my husband was afraid I was getting pneumonia."

"One day one of my neighbors came in and also suggested that I try Dr. Wood's Norway Pine Syrup."

"I took a few doses and I was greatly relieved. 'I also relieved my son, aged nine, of the cough. 'I will never be without a bottle of 'Dr. Wood's' in the house, and I cannot recommend it too highly.'"
Price: a bottle in large family size 50c, at all druggists and dealers.
Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

Heals Harness Calls

Absorbine quickly and thoroughly heals harness calls, sore chaps, frost bites and other lacerations suffered by horses. Absorbine is also a powerful antiseptic, will not blister or corrode hair—and the horse can be worked during treatment. It is both economical and safe. Buckets on the horse cost from \$2.50 per bottle at druggists or general merchants.

W. F. Young, Inc., Lyman Bldg., Montreal

ABSORBINE

of the organization of young people's live stock clubs throughout the province.
Telegraph Service for Fort Vermilion
Much satisfaction is expressed in the far northern part of the province over the recent announcement from Ottawa that the Government Telegraph line is to be extended to Fort Vermilion. This will provide communication by wire with the outside world, for a number of rapidly settling communities which up to the present have been isolated in this regard.

Alberta Farmer Named on Tariff Advisory Board

Hon. Jas. Robb, Dominion Minister of Finance, has announced the appointment of Frank S. Jacobs of DeWinton, Alberta, to the vacancy on the Tariff Advisory Board to succeed Hon. D. G. McKenzie who resigned some time ago to enter the provincial government of Manitoba. Mr. Jacobs is a farmer and a former editor of the Farm and Ranch Review, Calgary.

Provincial Horticultural Association Formed

Those interested in the beautification of the province will be interested in the announcement of the recent formation of the Alberta Horticultural Association. The new organization is the outgrowth of a concerted movement on the part of the Alberta Fair Association and of twelve horticultural societies in various parts of the province. Its main purpose is to encourage urban and rural citizens to make the homes and home surroundings in Alberta more attractive by the growing of trees, shrubs and flowers. The Association is interested in assisting in the formation of additional horticultural societies in the province and will furnish information at any time to societies or to individuals on horticultural problems. Considerable

assistance will be given to the organization by H. L. Seymour, Provincial Director of Town Planning.

American Farmers Interested in Alberta
Letters reaching the Publicity Commission's Office continue to indicate the interest in the opportunities for settlement in Alberta which is being shown by farmers in the mid-

western states. The announcement is made in a letter from A. E. Pilkie, Canadian Government Agent at Omaha, Nebraska, that ten farmers from one district in Nebraska plan to come to Alberta early in the present spring with the purpose of purchasing from ten to fifteen sections of land.

Similar encouraging reports are being received from a number of other western states.

calities in which exhibits of Alberta agricultural products were shown by the Publicity Branch during the past two seasons.

Dominion of Canada Income Tax Information Reports Are due March 31, 1929

This advertisement is directed to:

Trustees Employers Corporations

Do not incur the penalties which the law imposes for delay.

What is Required of Persons Acting as Trustees

All trustees, executors, administrators, assignees, receivers or persons acting in a fiduciary capacity are required to make a detailed return of the income of the estate or trust which they represent.

This return should be made on Form T.3.

What is Required of Employers

Each employer in Canada must make a return giving particulars of salaries, wages, commissions, fees, bonuses and other remuneration of all direct-

Locations of Income Tax Offices

Inspectors of Dominion Income Tax are located in convenient places throughout Canada. They will comply promptly with written requests for information. They will supply you with the proper forms upon which to make returns. Consult the Income Tax Office nearest to you. Address "Inspector of Dominion Income Tax."

The offices are at:

Halifax Nova Scotia
Saint John New Brunswick
Quebec City Quebec
Ottawa Ontario
Kingston Ontario
Belleville Ontario
Toronto Ontario
Hamilton Ontario
London Ontario
Port William Ontario
Winnipeg Manitoba
Regina Saskatchewan
Prince Albert Saskatchewan
Saskatoon Saskatchewan
Calgary Alberta
Edmonton Alberta
Vancouver British Columbia
Dawson Yukon Territory

tors, officials, agents, employees; professional men or other persons who received \$1,000 or more during the calendar year 1928, and who were paid at a rate of wage or salary (including bonus) equal to \$1,500 or more per annum during the same period.

Employers should ask for Form T.4.

What is Required of Corporations

Every corporation in Canada is required to file a return of its dividends or shareholders' bonuses paid or credited during the calendar year 1928.

This return should be made on Form T.5.

Get Your Forms at Once!

Blank forms may be obtained by writing your nearest Inspector of Dominion Income Tax, or Postmaster, or the Income Tax Division, Department of National Revenue, Ottawa. The addresses of inspectors are given herewith. Full instructions appear on each form.

Do not delay because of the absence of officials who generally sign such reports. Any responsible member of a firm or corporation, or any person acting as agent for the trustee, may sign these returns and so avoid the penalty. March 31 is the last day for making information reports required under the Income War Tax Act.

The Income Tax Division respectfully asks for the fullest cooperation of taxpayers required by law to make these returns.

THE DEPARTMENT OF NATIONAL REVENUE

Income Tax Division
Honourable W. D. EULER,
Minister of National Revenue.

C. S. WALTERS,
Commissioner of Income Tax.

When Food Sours

Lots of folks who think they have "indigestion" have only an acid condition which could be corrected in five or ten minutes. In effective anti-acid, the Phillips Milk of Magnesia soon restores digestion to normal.

Phillips does away with all that sourness and gas right after meals. It prevents the distress so apt to occur two hours after eating. What a pleasant preparation to take! And how good it is for the system! Unlike a burning dose of soda—which is but temporary relief at best—Phillips Milk of Magnesia neutralizes many times its volume in acid.

Next time a hearty meal, or too rich a diet has brought on the least discomfort, try—

THE DESPERATE LOVER

By E. Phillips Oppenheim
ILLUSTRATED BY FRANK DORRIN

FOURTH INSTALLMENT What Happened Before

Palmerio is the scene. There an ex-love, Leonardo di Marioni, has come for love of Adrienne Cartuccio, who spurns him. He meets an Englishman, Lord St. Maurice, who falls in love with Adrienne on sight. Leonardo sees his sister, Margherita, who tells him his love for Adrienne is hopeless. But he pleads with her to arrange an accidental meeting, to say farewell, between Adrienne and him.

She consents. That night the Englishman is informed of an attempt being made to carry off Signorina Cartuccio by brigands employed by a rejected suitor, on a lonely road. He rushes to the scene, and proves able to rescue the ladies.

Inflamed by the failure of his scheme, Leonardo sees Margherita who shows him she knows that he was instigator of the attempted attack. The Englishman now sees Adrienne often. The Englishman, sitting in the hotel, finds a dagger at his feet. Looking up, he sees the Sicilian, and sends trouble. "We sat here a week ago," recalls Leonardo. Lord St. Maurice nods.

NOW GO ON WITH THE STORY
"It is well. It is of the events which have followed that night that I desire to speak, if you, Signor, will grant me a few moments of your time?"

"Certainly," the Englishman replied courteously. After all, perhaps the fellow did not mean to quarrel.

"I regret exceedingly having to trouble you, Signor, with a little personal history," the Sicilian continued. "I must tell you, at the commencement, that for five years I have been a suitor for the hand of the Signorina Adrienne Cartuccio, my cousin."

"Second cousin, I believe," Lord St. Maurice interposed.

The Sicilian waved his hand. It was of no consequence.

"Certain political differences with the imperial party in Rome, he continued, 'culminated two years ago in my banishment from Italy and Sicily. You, I believe, Lord St. Maurice, are of ancient family, and it is possible that you may understand to some extent the bitterness of exile from a country and a home which has been the seat of my family for nearly a thousand years. Such a sentence is not banishment as the world understands it; it is a living death! But Signor, it was not all. It was not even the worst. Alas, that I, a Marioni, should live to confess it! But to be parted from the woman I love was even a sorer trial. Yet I endured it. I endured it; hoping against hope for a recall. My sister and I were orphans. She made her home with the Signorina Cartuccio. Thus I had news of her continually. Sometimes my cousin herself wrote to me. It was these letters which preserved my reason, and consciously or unconsciously, they breathed to me ever of hope."

"Not Adrienne's, I'll swear," the Englishman muttered to himself. He was a true Briton, and there was plenty of dormant jealousy not very far from the surface.

The Sicilian heard the words, and his eyes flashed.

"The Signorina Cartuccio, if you please, Signor," he remarked coldly, "we are in a public place."

Lord St. Maurice felt that he could

afford to accept the rebuke, and he bowed his head.

"My remark was not intended to be audacious," he declared.

"For two years I bore with my wretched life," the Sicilian continued, "but at last my endurance came to an end. I determined to risk my liberty, that I might hear my fate from her own lips. I crossed the Alps without molestation, and even entered Rome. There I was watched, but not interfered with. The conclusion I came to was, that as long as I lived the life of an ordinary citizen, and showed no interest in politics, I was safe. I crossed to Palermo unharmed. I have seen the Signorina, and I have made my appeal."

Suddenly, with the swiftness of a tiger-cat, the Sicilian leaped forward and struck the Englishman on the cheek.

The Englishman dropped his eyes and knocked the ash from his cigar. The fellow was coming to the point at last.

"You, Signor," the Sicilian continued, in a tone which, although it was no louder, seemed to gain in intensity from the smoldering passion underneath, "you, Signor, know what my answer was, for you were the cause. I have not told you this much of my story to win your pity; I simply tell it that I may reason with you. I have tried to make you understand something of the strength of my love for the Signorina. Do you think that, after what I have risked, after what I have suffered, that I shall stand aside, and see another man, an alien, take her from me? I come of a race, Signor, who are not used to see the women they love chosen for other men's wives. Have you ever heard of Count Hubert di Marioni, who, with seven hundred men, carried off a princess of Austria from her father's court, and brought her safely through Italy here to be one of the mothers of my race? It was five hundred years ago, and among the ruins of ancient kingdoms, the Marionis have also fallen in estate. But the old spirit lingers. Lord St. Maurice, I am not a blood-thirsty man. I do not wish your life. Go back to your country, and choose for a bride one of her own daughters. Give up all thought of the Signorina di Cartuccio, or, as surely as the moon yonder looks down upon you and me, I shall kill you."

Lord St. Maurice threw his cigar away and shrugged his shoulders. The affair was going to be serious, then.

"You must forgive me, Signor, if I

do not quite follow you," he said slowly. "The custom in our countries doubtless differs. In England it is the lady who chooses, and it is considered—pardon me—ill-mannered for a rejected suitor to have anything more to say."

"As you remark, the ideas and customs of our countries differ," the Sicilian rejoined. "Here a nobleman of my descent would consider it an everlasting shame to stand quietly on one side, and see the woman whom he worshipped become the bride of another man, and that man an alien. He would be esteemed, and justly, a coward. Let us waste no more words, Signor. I have sought you tonight to put this matter plainly before you."

Unless you leave this island, and give up your pretensions to the hand of the Signorina Cartuccio, you die. You have climbed for the last time to the fore day breaks to-morrow, or your Villa Fiolesse. Swear to go there no more; swear to leave this island be-bled shall stain its shores. By the unbroken and sacred oath of a Marioni, I swear it!"

To Lord St. Maurice, the Sicilian's words and gestures seemed only grotesque. He looked at him a little contemptuously—a thin, shrunken-up figure, ghastly pale, and seeming all the thinner on account of his somber black attire. What a husband for Adrienne! How had he dared to love so magnificent a creature. The very idea of such a man threatening him seemed absurd to Lord St. Maurice, an athlete of public school and college renown, with muscles like iron, and the stature of a guardsman. He was not angry, and he had not a particle of fear, but his stock of patience was getting exhausted.

"How are you going to do the killing?" he asked. "Pardon my ignorance, but it is evidently one of the customs of the country which has not been explained to me. How do you manage it?"

"I should kill you in a duel!" the Sicilian answered. "It would be easily done."

The Englishman burst out laughing. It was too grotesque, almost like a huge joke.

"Damm you and your duels," he said, rising to his feet, and towering over his companion. "Look here, Mr. di Marioni, I've listened to you seriously because I felt heartily sorry for you; but I've had enough of it. I don't know whether you understand the slang of my country. If you do, you'll understand what I mean when I tell you that you've been talking 'bally rot.' We may be a rough lot, we Englishmen, but we're not cowards, and no one but a coward would dream of giving a girl up for such a tissue of whimpers. Be a man, sir, and get over it, and look here—none of this sort of business!"

He drew the dagger from his breast pocket, and patted it. The Sicilian was speechless and livid with rage.

"You are a coward!" he hissed. "You shall fight with me!"

"That I won't," Lord St. Maurice answered coolly. "Just take my advice. Make up your mind that we both can't have her, and she's chosen me, and come and give me your hand like a man. Think it over, now, before the morning. Good-night!"

The Sicilian sprang up, and looked rapidly around. At an adjoining table he recognized two men, and touched one on the shoulder.

"Signors!" he cried, "and you, Signor le Capitaine, pardon me if I ask you for your hearing for an instant. This—gentleman here has insulted me, and declines to give me satisfaction. I have called him a coward and a rascal, and I repeat it! His name is Lord St. Maurice. If he forfeits his right to be considered a gentleman, I demand that his name be struck off the visitors' club."

The three men had risen to their feet. Two of them were gentlemen of the neighborhood with whom Lord St. Maurice had a bowing acquaintance. The third was a French officer. They looked inquiringly at Lord St. Maurice.

"It's quite true, gentlemen," he said with easy self-possession. "He's been calling me all the bad names under the sun, and I have declined to give him what he calls satisfaction. I haven't the least objection to your knowing it."

The two Palmeritans looked at one another doubtfully. The officer, giving

his moustache a twist, stepped forward and bowed.

"Might we inquire your reasons for declining the duel?" he asked.

The Englishman shrugged his shoulders.

"Certainly," he answered. "In the first place, I am an officer in the service of Her Majesty the Queen, and duelling is strictly forbidden; in the second, Signor di Marioni is too excited to know what he is talking about."

"In England, Signor, your first objection is valid; here, it is scarcely so. As to the latter, Monsieur le Count seems now to be perfectly composed. I am on the committee of the club, and I fear that I must erase your name if you persist in your refusal."

"I don't care two straws about your club," Lord St. Maurice answered coolly. "As for the duel, I decline it, once and for all. We Englishmen have a code of honor of our own, and it is more to us than the custom of the countries which we chance to visit. I wish you good-night, gentlemen."

They fell back, impressed in spite of themselves by the coolness and hauteur of his words. Suddenly, with the swiftness of a tiger-cat, the Sicilian leaped forward and struck the Englishman on the cheek.

"Perhaps you will tell us all, Signor, how the men of your country resent an insult such as that," he cried.

Everyone turned round at the sound of the scuffle. The eyes of all were upon the Englishman, who stood there head and shoulders above all the crowd, with blazing eyes and pale cheeks. He was in a towering passion, but his voice never shook or faltered. "You shall see for yourself," Signor!" he cried.

The Sicilian struggled, but he was like a child in the Englishman's arms. He had caught him up in a vice-like grasp, and held him high over the heads of the astonished onlookers. For a moment he seemed as though he were going to throw him right out of the restaurant on to the Marina, but at the last moment he changed his mind, and with a contemptuous gesture set him down in the midst of them, breathless and choking.

"You can send your seconds as soon as you like," he said shortly. "Good-evening, gentlemen."

PAST, PRESENT and FUTURE

PROUD of its past record, alert to present opportunities and mindful of the standards it has constantly upheld, the Bank of Montreal is now entering upon the one hundred and twelfth year of its service.

To-day in resources and organization the Bank is better equipped than at any other period in its history to render prompt and efficient service to the people and business interests of Canada.

W. Prest, Manager

They fell back before him like sheep, leaving a broad way right into the hotel, through which he passed, stern and self-possessed. The Sicilian watched him curiously, with twitching lips.

"There goes a brave man," whispered one of the Palmeritans to the French officer. "But his adays are numbered."

The Frenchman gazed at the Sicilian and nodded. There was death in his face.

Two men stood facing one another on a narrow belt of sand, stripped to the shirt, and with rapiers in their hands. One was the Sicilian, Leonardo di Marioni, the other the Englishman, Lord St. Maurice. Their

attitude spoke for itself. They were about to fight for each other's life. (Continued next week)

The Times invites the cooperation of residents of the country districts. Correspondents from districts not now represented in this paper are requested to write in for correspondence paper and particulars.

Beauty and Performance

BEAUTY finds a new expression in the Ford car.

Perfect proportion serves to mould its low lines in pleasing harmony. Graceful, full crown fenders, acorn type headlights and full-nicked radiator shell and appointments set off its dignified appearance.

Performance in the Ford car implies more than smooth speed, flexibility, getaway and instant response to the brakes. The word covers inbuilt quality, precision methods of manufacture, and inherent balance—all of which make for many thousands of miles of carefree motoring.

ECONOMY—Month after month, as you have the opportunity to test this Ford car of yours, the realization grows that it costs very little to operate. You find that you get over twenty miles to the gallon of gasoline in city driving; nearer thirty on the open road. It is sparing on oil. Tires last longer than you anticipated, because the car is light and braking smooth and even. Ford labour and parts are low and Ford service is available everywhere.

LONG LIFE—Your Ford car is not outstyled from year to year. You can drive it as long as you like and it will hold its own in any company. Rather than creating yearly models, the Ford Motor Company's policy is constantly to make improvements which can be incorporated with your car at low cost.

SAFETY—The fully enclosed six brake system grips the flying wheels with silent power. The windshield is of shatterproof glass. A steel body gives maximum protection. Even at high speeds the perfect balance of the Ford car and its unique and effective transverse springs hold it firmly on the road. These features contribute to both physical and mental comfort.

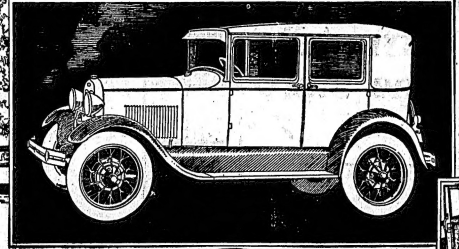

SIMPLICITY—Behind the whole plan of the Ford car is a basic principle that has been followed to the letter. This may be expressed in the words "Make it better—make it simpler."

TIME PAYMENT—If you prefer to buy out of income, you will find the authorized time payment plan offered by all Ford dealers most attractive.

Drive it Yourself—there is no Better Test

Ford Car Features

- Choice of colours
- 55 to 65 miles an hour
- 40-horse power engine
- Full balloon tires
- Fully enclosed six-brake system
- Houdaille hydraulic shock absorbers
- 50 to 60 miles per gallon of gasoline
- Shatterproof glass windshield
- Theft proof ignition lock
- Reliability and low upkeep

The luxurious finish of the Ford car is comparable to that of a custom-built car. Note the spacious seat and convenient arm rest.

MILLET LOCAL NEWS

Miss Marion Graham spent the week-end at home.

Miss Alice Mitchell is recovering rapidly from her recent illness.

Mrs. Henry Brinker is here after spending several weeks in Edmonton.

Rev. L. R. and Mrs. Macdonald were visitors to Edmonton on Friday.

Master Melfort, Pritchard of Edmonton, spent the week-end at his home here.

Miss Madge Plant was a visitor with Miss Morrow at Kavanagh last week.

Mr. Chas. Brinker is home after spending a few months at Buck Lake lumber camp.

The local Bonsel is working to a close under difficult attendant because of mild weather.

The weather man has made another attempt to introduce us to "Spring," but we are hardly ready to believe it yet.

Mr. F. Fucy has erected an addition to his service plant, to be used as a garage and is now ready for business.

The ladies of the United Church invite you to the St. Patrick's social at the home of Mrs. Graham on Friday evening.

Mr. and Mrs. Ennis, Miss Margaret and Master Russell of Leduc, were guests at the home of Mr. and Mrs. J. B. Christie on Sunday.

The auction sale at Mitchell's sale yards on Saturday, drew a large crowd, and showed that there is quite a lot of cash stored away, some place.

Bunice Olesen and Elda Van Valkenburg stood first and second for regular attendance in Mrs. Creehan's class of the United Church school for 1928.

During the Sunday School session, in Millet United church on Sunday last, Annie Dieckhoff, Elda Van Valkenburg and Allison Macdonald, were presented with certificates from the W.C.T.U. for their very creditable answers to the temperance questions given in the Northern Messenger.

The minstrel show on Friday evening drew only a fair attendance, but all who were present enjoyed it very much. The evening seemed to be too short, but there was lots of pep to the numbers and no time wasted. The dance at the close was thoroughly enjoyed, the music being exceptionally good.

Advertisements in the paper that circulates all over the district thoroughly.

Mrs. Taylor, lecturer at University College, London, says that of the women who graduated from Oxford during the last seven years only one in twenty married. She thinks that "educated women do not marry because they are too good for the men. Men are afraid of women with university training." Yet in this country we find an increasing number of lady students at our colleges; but perhaps they have not met Mrs. Taylor.

HILLSIDE

The Junior U.F.A. are meeting in the school house this Friday evening for a social hour.

The joint concert to be held on Friday evening, the 22nd, will be of the usual high standard. A pte social will follow the entertainment.

The roads are again open for cars. E. R. Hoskins had the misfortune to lose his separator and well house by fire.

MR. HARVEY DISPOSES OF VERY WELL-BRED ANIMAL

J. O. Harvey of Millet, owner of "Glady's", 20069, the record breaking year-old Shorthorn cow, has disposed of "Denmore Baron", her 14-month old son at a long price in the Volpi of Swan River, Man. Weighing 2017 lbs. and well set, he should be a credit to Mr. Volpi's herd. This calf was well fed throughout, and his feed just what any ordinary Western farmer raises. His sire was "Dunfield Baron", sire of sire Poplar Butter Boy dam of sire Dunfield Butter Cup.

"Glady's", whose remarkable performance as a two, three and four year-old, published in a previous issue of this paper, was Lucy, raised by Mr. L. E. Marr of Millet, a well-known breeder in Shorthorn circles. The sire of Lucy was Speculator, acquired by Mr. Marr out of the famous herd of Sir Wm. Van Horne. The sire of Glady's was Victor, raised by Mr. Marr, who purchased his sire, the famous bull Iron Lad, in 1918, at the Edmonton Spring Show for \$1,000. The dam's side traces back to the lovely strain—Lovely 19th (Imp.) 306, imported into Canada by A. Cruickshank, well-known British breeder and speculator, back to Pride of Scotland (Imp.) 45213, the lovely strain being also in his blood. Great credit must be given to Mr. Harvey and Mr. Marr in building up good blooded stock in this particular breed.

TO CUT SALES TAX; TARIFF IS ADJUSTED

Ottawa, March 1.—The budget to day takes another one per cent of the sales tax, bringing it down to two per cent. This was the most important change contained.

The tax on the sale and transfer of stocks is changed from a flat rate of three cents to a graduated scale from one cent to four cents.

Tax on insurance premiums other than life of one per cent is abolished.

Tax on railways and steamship tickets is removed. This takes effect May 1.

Tax of three cents on telegrams and cables is abolished.

The total loss of revenue from reductions in tariff and other taxes is estimated at \$25,000,000.

The transportation tax which is abolished (section 29 of the special war revenue act) is a tax of five cents on tickets over \$1 and less than \$5; over \$5 for each additional \$5, five cents.

Steamships \$1—when fare exceeds \$10, but less than \$40; then \$3 up to \$65; above that a \$5 tax. Chair car, ten cents; sleeping car, per cent.

These are abolished from May 1, 1929. Most of the thirty-four changes in the tariff are in the matter of adjustments.

Rates of duty on certain machinery and equipment used in the mining industry have been reduced. The present rate is 5 British preference, 25 per cent intermediate and 27 1/2 general. The new rate is ten per cent, 15 per cent and 20 per cent respectively.

The lower duties on engines for flouring's boats are extended to include part.

Request of horticulturists for reduction in certain bulb apparatus has been granted.

Some reductions are made in printing machinery.

Rates on side cars for motorcycles reduced to same as on motorcycles.

Provision is made for government to levy duty of half cent a pound on copper rods if found necessary.

ROYALITE 18 COMES IN

Calgary, March 2.—A gas flow measuring 13,000,000 cubic feet of very wet gas was struck in the Royalite No. 18 well Saturday morning. J. H. McLeod, production manager of the Imperial Oil company, announced at 11 o'clock.

Every day is
CHILDREN'S DAY
at our studio

WE specialize in making photographs that sparkle with the spirit of childhood. Have those new pictures made now. Telephone today for an appointment.

The Walin Studio
Wetaskiwin

PHOTOGRAPHS
Live Forever

At that hour the tools had only been out of the hole a few minutes and Mr. McLeod would make no estimate of the production. He stated that the well would take some time to clean itself out.

HERE'S A RICH ONE

A New Yorker, with riches acquired through the thoughtfulness of Mr. Volstead, left the city for a visit to his elaborate hunting lodge in the Adirondacks. On his arrival there it was discovered that the most important item, ostensibly, of the expedition—his rifle—had been left in the city. The long distance telephone was brought into use. The butler in the New York mansion answered the call in well-modulated accents.

"I am unable to hear what it is you require, sir," said the polished retainer.

"My gun. Send me my gun, which I left behind."

"Your what sir? Send some gum?"

"The mighty Nimrod lost his temper. Gun, you idiot. Send me my gun! Can't you hear? G for gun; U for Europe; N for pneumonia—Gun. And if you don't understand that, you're fired!"

THE JOLLY HAULTAINERS

PRESENT "A CHEERFUL LIAR"

The Jolly Haultainers made their

annual appearance at the Haultain

school on Friday evening last, and

thoroughly delighted a packed house

with their presentation of "A Cheer-

ful Liar," a three-act riotous comedy

of the rustic type, depicting deception,

destruction and destruction, the scene

being laid in a country justice court,

the home of the judge, and in a summer

villa.

The stellar honors of the evening

were easily annexed by Wilf Mountain

who maintained the excellent reputa-

tion he has enjoyed for several

seasons as a character actor of more

than ordinary ability. He assumed the

title role, that of "Judge Hastings,"

and was ably supported by the footlights,

glow very seldom throughout the entire

presentation.

Miss Ruby Johnson, however, in the

role of "Birdie Sweetlove," a vivacious

housekeeper, was an outstanding

member of the cast, and her histrionic

ability and stage appearance are un-

doubtedly second to none in this

section of the province. Alf Schnee, as

the county constable, put plenty of

kick into his judicial activities, and

Gladys Riemer, as a Hoosier school-

marm, was particularly good in some

of the scenes, while Louisa Elkerman

as "the girl who has a good time

when she waltzes," was exuberantly

effective when she essayed to im-

personate a male character. Hugo

Schnee as the young man in love with

"Flora," Oscar Johnson as the rather

unscrupulous individual in clerical

clothes, and Robert Greenwall as the

millionaire, all did justice to their

respective assignments.

There have been many less inter-

esting productions in many large

centres, and the entire cast is to be

complimented on the success of this

offering.

GIRL GUIDE NOTES

The regular meeting of the Wetaskiwin Girl Guides was held on Wednesday last in the Armory. The meeting was opened with the Girl Guide prayer, after which they took the horseshoe formation, saluting the flag and giving the Guide law and promises. Part of the evening was spent in studying the Morse code for the Second Class test. The meeting was closed by saluting the officers.

CITY BAKERY

Give your folks quality foods

The City Bakery

THERE'S nothing too good for your folks.

That's why we're baking such a delicious, nutritious, highly prized loaf of bread.

And our cakes and pastry are made for your folks, too.

GWYNNE

The Jolly Haultainers will present the three-act comedy "A Cheerful Liar," here on Friday evening, March 22: Wilf Mountain, in the title role, heads a very capable cast, who made a decided hit in the Haultain school last week in their first presentation of this hilarious offering.

CHESTERWOLD JUNIORS

On Friday evening, February 22, our Junior U.F.A. Local held a get-together dance in the Mount Red school, this being the first social evening of the new year. There was a gratifying attendance, as nearly every junior was present. A large home-made grain tank and four-horse team was employed to gather up a large number of the crowd that had farthest to come.

There seemed no end to the fun, and along with Glen Lindsay's schottische, Kenneth Eldt's Charleston and Ed. Torris' new moustache, the night proved to be one of continual merriment.

The Juniors will hold an entertainment and dance in the Chesterwold hall on Easter Monday.

Special Notices

***William Haines in "Alias Jimmy Valentine," Our Gang in "Holy Terrors," and "South Sea Sages," is on the picture program at the Angus Theatre on Friday and Saturday of this week. "Yellow Cameo" will be shown on Friday night and at the matinee on Saturday at 2:30.

***The Catholic Women's League will hold a tea and food sale on Saturday afternoon, April 6th, from 3 to 6 o'clock at the City Bakery.

***The Wetaskiwin Young People's Club are presenting a Minstrel Show next Thursday evening in the Angus Theatre, at 8:15. The company consists of about forty people, of both sexes, all doing their stuff in burnt cork make-up. Several specialties will be introduced and it will be a bang-up show throughout. The program appears elsewhere in this issue.

***St. Patrick's dance will be held in the Crooked Lake hall on Friday, March 15. Music by Moonbeam's five-piece Orchestra.

***"The Babes in the Wood," by local children, will be an added attraction in addition to the regular program at the Angus Theatre on Saturday, March 16th, at 2:30. No advance in price.

***"Sunset Pass," a great story of the outdoors, from the pen of Zane Grey, will be shown at the Angus Theatre on Monday and Tuesday, March 11 and 12.

***A masquerade dance will be held in the Angus Ridge Community hall on Friday, March 15. Music by the Four Playmates. Good eats and a good time.

***Come to the Angus Theatre on Wednesday, March 20th, and let Glenn Tryon show you "How to Handle Women." "Broadway Ladies" will be there too, and a fine local talent program is being prepared to complete the show. One night only.

Mr. William M. M. Touche, who was heard in a violin solo and duet in the Angus Theatre last week, is prepared to visit this city to give violin lessons one day each week, and those interested in his coming are requested to write him at his residence in Lacombe. Mr. Touche is a graduate of
